EXPLORATION WITHOUT THE HARDSHIP

I'm pleased to present Silversea Expeditions' 2016 voyages aboard *Silver Explorer*, *Silver Galapagos* and *Silver Discoverer*.

For the first time, we're visiting Myanmar, formerly Burma. From Phuket, we'll explore the pristine Mergui Archipelago in southern Myanmar, where sea gypsies worship spirit gods, before continuing to Yangon to explore magnificent pagodas, crumbling colonial architecture and ancient Bagan.

Another new expedition takes us across the top of Australia to visit Arnhem Land, where indigenous people practise traditional customs. In North Western Australia, we'll explore the rugged Kimberley coastline at the end of the wet season, when the waterfalls will be in full flow.

Continuing to Indonesia, we'll see the mysterious burial stones of Bori, known as the 'Stonehenge of Indonesia', during an overnight experience to Tana Torajaland on Sulawesi. Another Indonesian odyssey includes our first-ever visit to Camp Leakey, an orangutan research base tucked within a national park in Borneo.

In the Arctic, we're launching our first expedition to the isolated White Sea and Kanin Peninsula in Russia's extreme north. In the Canadian Arctic, we'll see whales and polar bears around Baffin Island in between their crossing to and from Greenland.

In Antarctica, as well as 10-day voyages, we're offering a 12-day Antarctic Peninsula expedition that will attempt to cross the Antarctic Circle.

Journeying to Melanesia, we'll gain insights into people's way of life in Papua New Guinea, the Solomon Islands and Vanuatu. We'll visit local tribes, learn about the significance of the Baining fire-dance and maybe stand on the rim of the active Mt. Yasur volcano.

In the Bering Sea we'll continue to explore the Russian Far East for diverse wildlife, looking for Kamchatka Brown Bears, whales and over 250 bird species. We'll also meet local Koryak and Chucki peoples and see spectacular scenery.

Other 2016 highlights include Indian Ocean World Heritage-listed sites such as the awe-inspiring Aldabra, the planet's second-largest coral atoll, in the Seychelles. We'll roam Africa's east coast, taking in Mozambique, Tanzania and Zanzibar Island.

Silver Explorer will also sail the continent's seldom-visited Atlantic coastline. We're setting off on a culinary journey, one of our special themed voyages, from Senegal to Portugal that will include taking tea in the Sahara desert and sampling Moroccan wine.

Our expert guides aboard *Silver Galapagos* will continue sharing their passion for these extraordinary islands and their wildlife on our two seven-day itineraries visiting the Northern and Western Isles. Some voyages can be combined to make longer trips, or linked with *Silver Explorer's* Central or South American itineraries.

As we continue to explore our amazing planet, I invite you to embark on an exciting Silversea expedition — with life's little luxuries on board.

If you wish to extend your expedition experience, voyages can be combined. Silversea recommends the following combinations:
 Voyages 9612 & 9613
 Voyages 9619 & 9620

Silver Discoverer · Sonsorol Island · Palau – 09:00 PST
12°C, 53.6°F · 5° 32' N, 132° 21' E

Experts

Led by our Dive Master, we descended deep into pristine waters teeming with exotic creatures. Back on board, our personal team of expert marine biologists brought that world back to life, sharing their knowledge of the visual feast beneath the waves.

X Marks the Spot

The archives of Silversea's partner,
The Royal Geographical Society, were
illuminating. After Shackleton's ship
Endurance broke up, Sir Ernest Shackleton
had to camp out in a sodden reindeer
sleeping bag, an ordeal far removed from
our luxurious life on board.

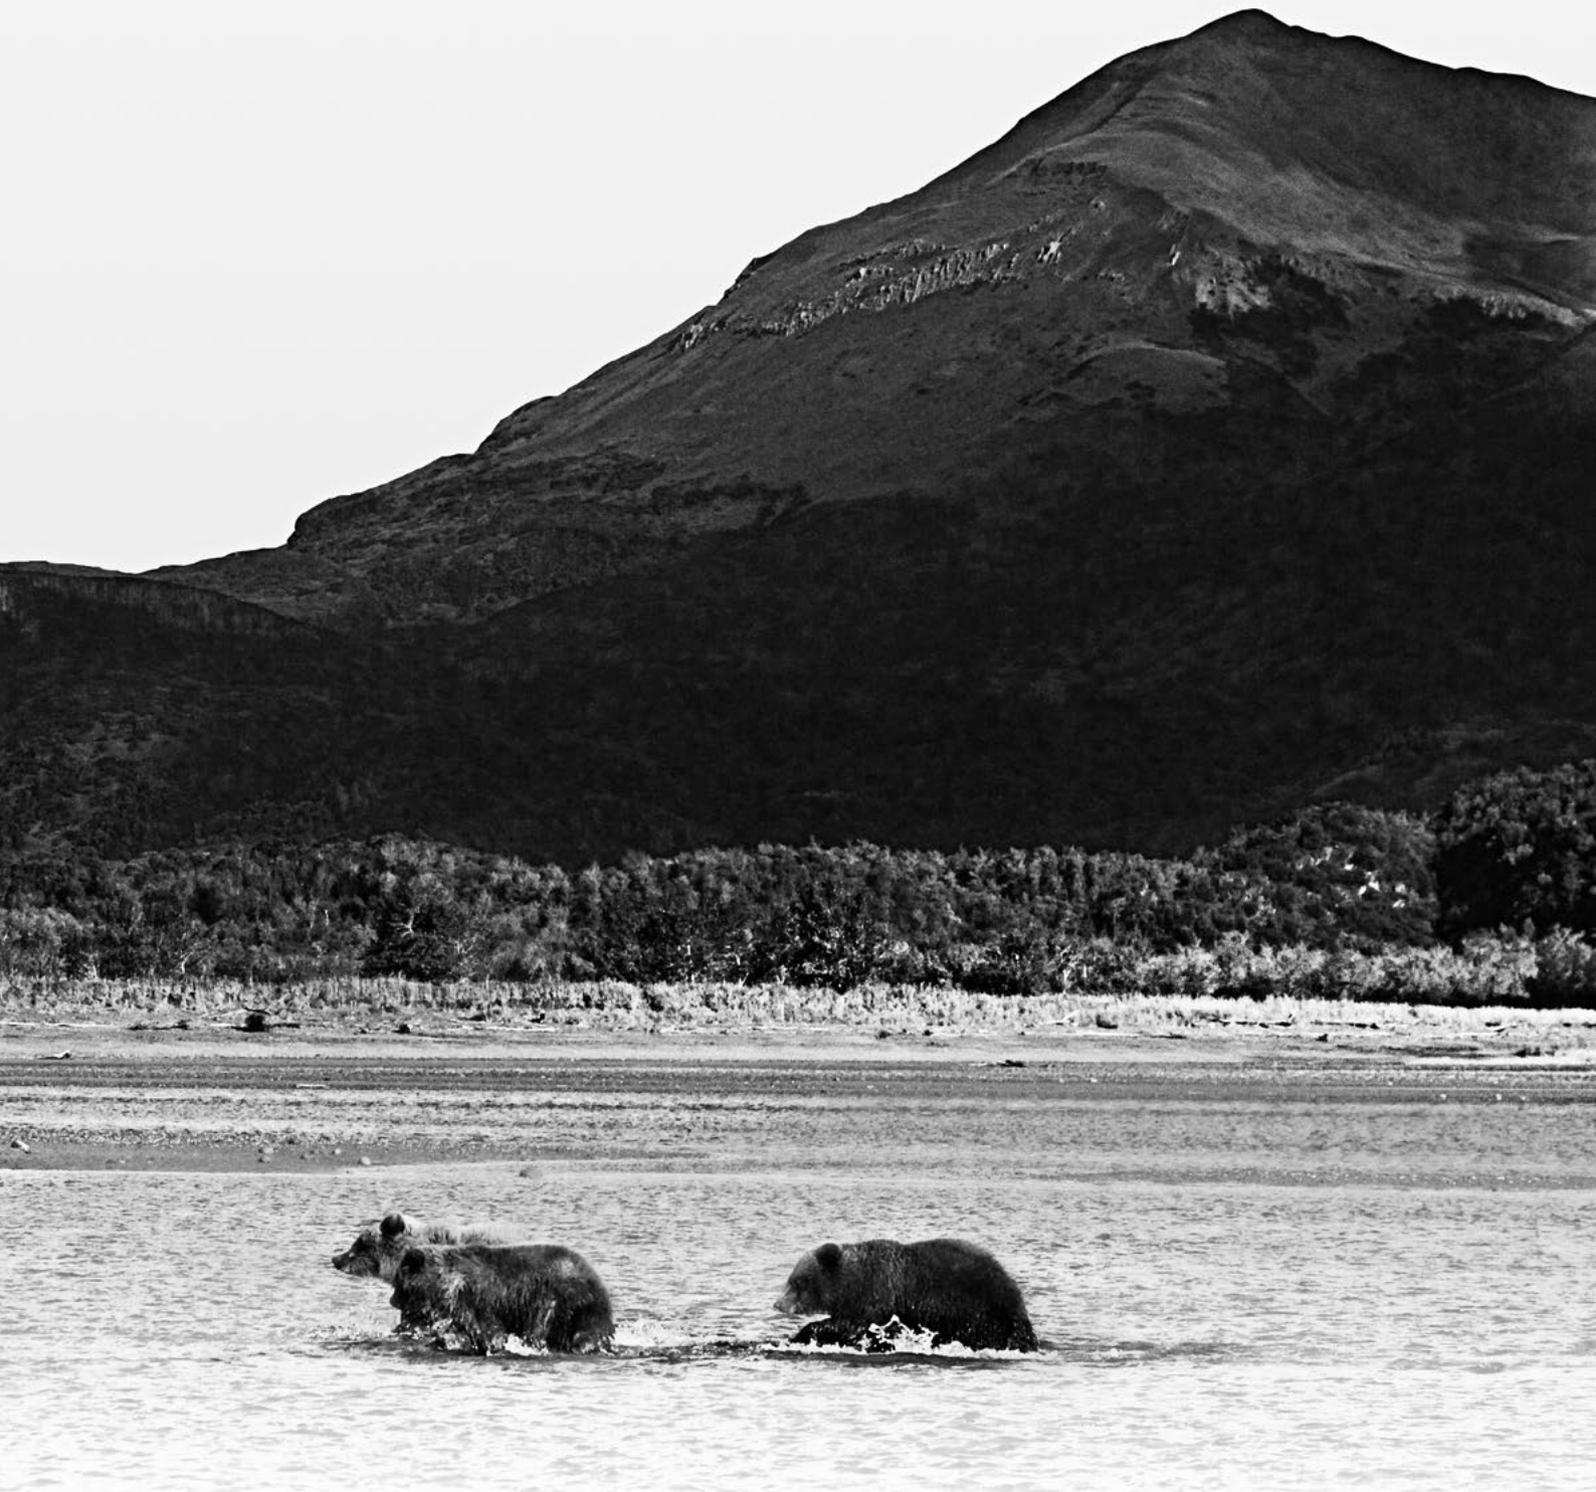

Silver Discoverer · Geographic Harbor · Alaska · 16:00 AKST

P

Private View

Like the brown bears and foraging eagles, we were attracted to Geographic Harbor by the thousands of salmon that spawn in the rivers and streams. With the help of our onboard professional photographer, it was a memory we could all relive. Truly unforgettable.

Silver Explorer · Darien Jungle · Panama · 18:00 EST
30°C, 86°F · 3 Knots

Local Life

As we stepped ashore from our canoe, the men of the remote Emberá community serenaded us with drums, flutes and maracas. The villagers welcomed us into their simple homes built from trees and performed a spirited native dance. We felt privileged to be invited.

Silver Explorer · Bear Island · Arctic · 14:00 CET
0°C, 32°F · 74° 36' N, 19° 16' E

Options Every Day

Birds or Beasts? The biodiversity of this island matched the diversity of our days. Expedition leaders took us in Zodiacs® to the foot of rugged cliffs, home to thousand of sea birds.

Silver Discoverer · Raft Point · Australia · 10:00 AWST
35°C, 95°F · 16° 04.22 S, 124° 27.18 E

Remote Destinations

We saw few people in this mainly uninhabited region, although we felt the mystical presence of Wandjina Spirits, captured in ancient rock art. Our Zodiacs® allowed us to navigate close to the shore to unlock the area's ancient secrets, a sight seen only by a select few.

R

Silver Galapagos · Española Island · Galápagos · 12:00 GALT
27°C, 80.6°F

Exceptional Wildlife

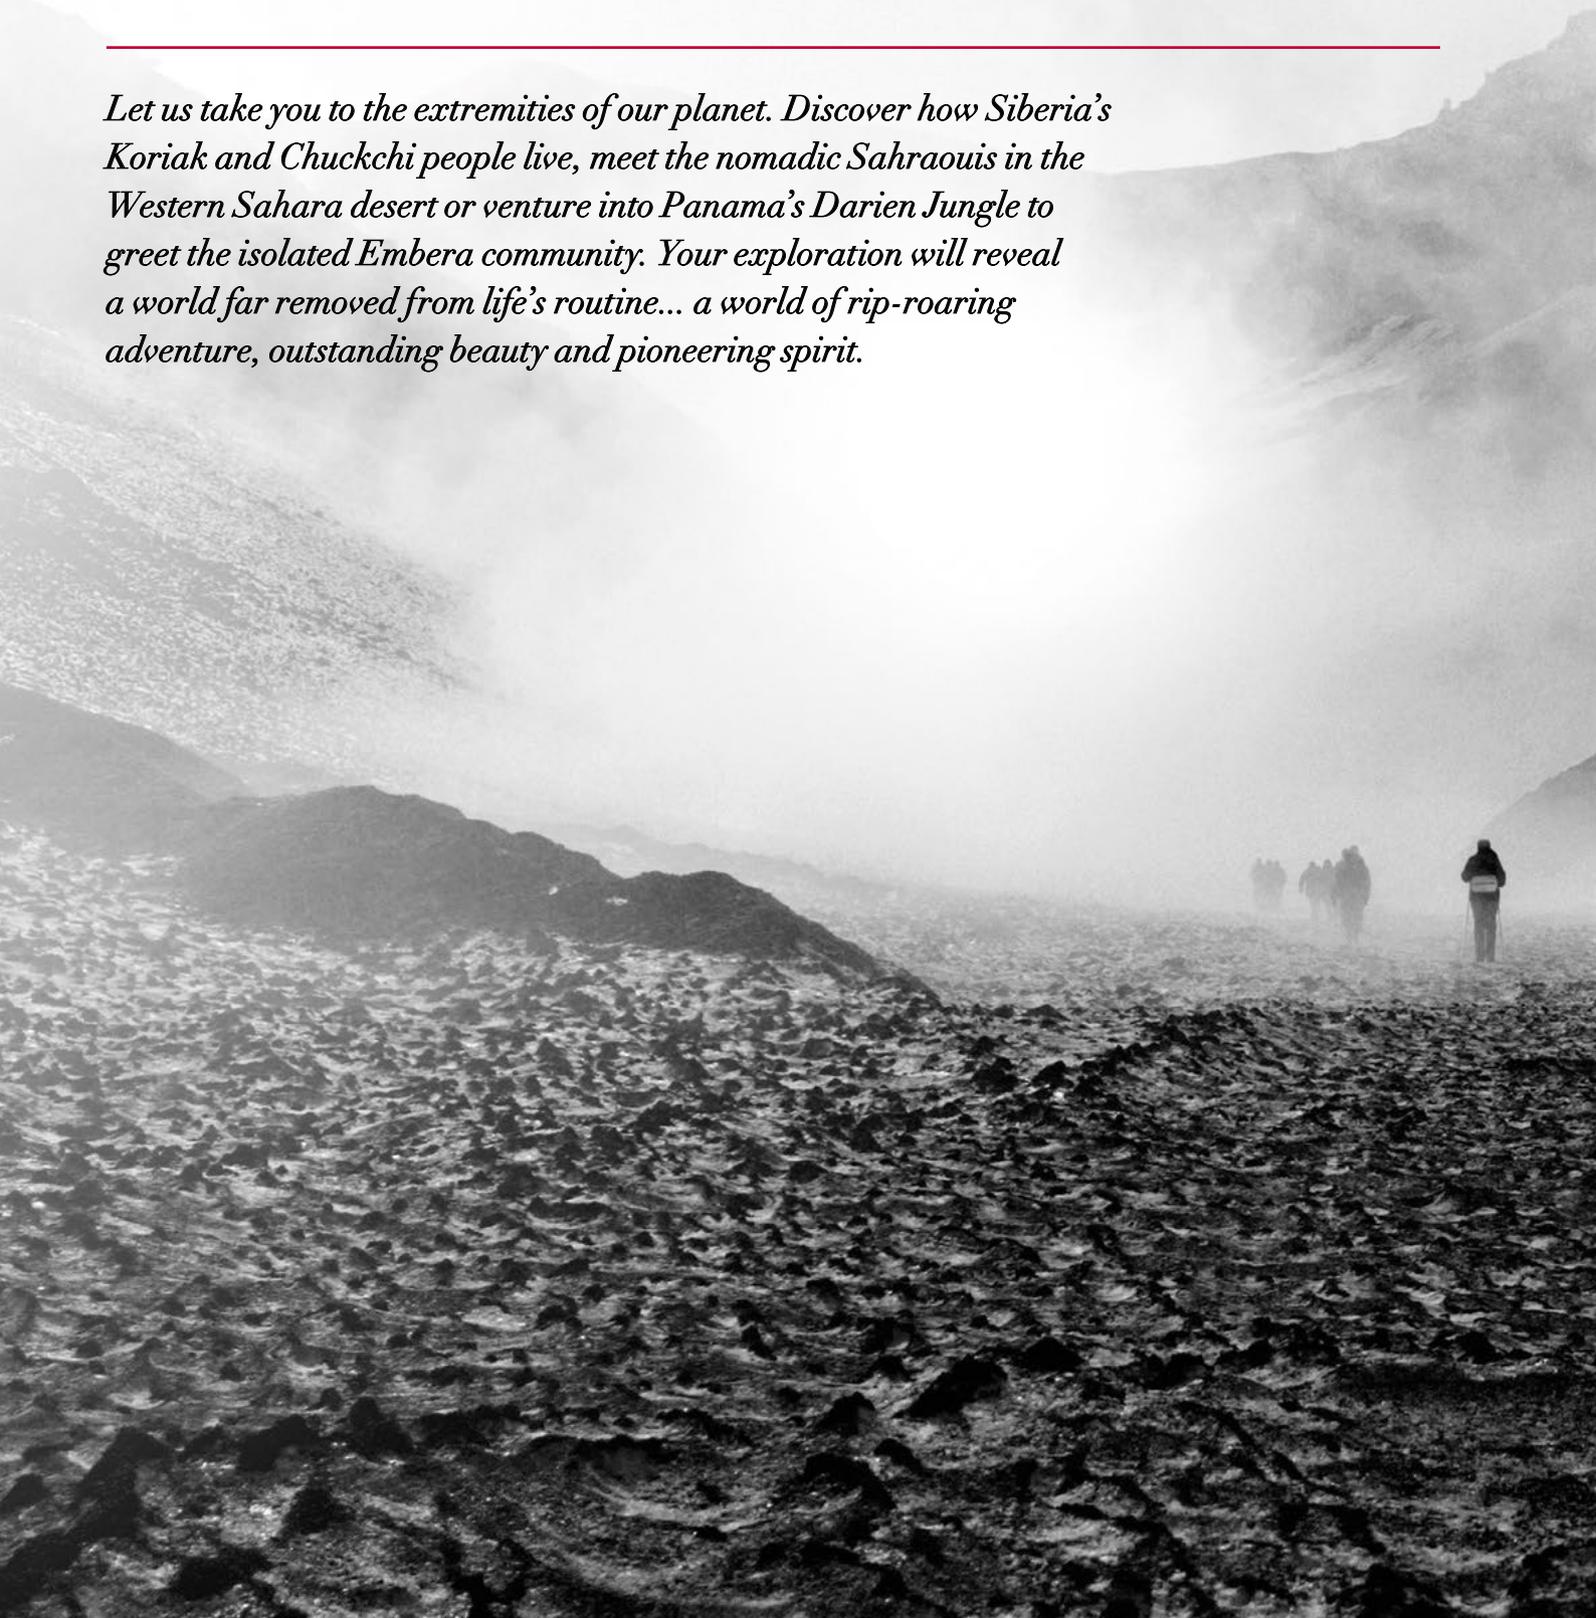

Intrigued by movement among the rocks, we came face-to-face with fearless prehistoric beasts. Marine iguanas, sea turtles and giant tortoises roamed this primeval land. As they got closer, we realised that our curiosity was one way — they showed no interest in us at all.

FE

TO THE ENDS OF THE EARTH

Let us take you to the extremities of our planet. Discover how Siberia's Koriak and Chuckchi people live, meet the nomadic Sahraouis in the Western Sahara desert or venture into Panama's Darien Jungle to greet the isolated Embera community. Your exploration will reveal a world far removed from life's routine... a world of rip-roaring adventure, outstanding beauty and pioneering spirit.

Onboard gratuities are included in your cruise fare, assuring a level of service motivated solely by a desire to provide supreme quality standards.

EXPERTS BY YOUR SIDE

That tiny plant with pink flowers? Consult our botanist. That purple lava-like rock? Our geologist will explain all. That screeching sound overhead? A question for our ornithologist. On land and sea, you'll be reassured to know that all your queries will find ready answers. Speaking with the authority that comes from years of study, our team of experts delights in sharing their considerable knowledge.

AN ONBOARD BANK OF KNOWLEDGE

Between 11 and 13 qualified specialists, many with a PhD or Professor to their name, will be on hand during every voyage and shore excursion. They'll give lectures, run workshops, lead Zodiac® trips and guide nature walks. All are leaders in their field, carefully chosen for their enthusiasm and ability to share their knowledge and insights. You'll find our experts' passion for their subjects quite infectious.

SCUBA DIVING ONBOARD SILVER DISCOVERER

The programme is complimentary, although space is limited and we recommend booking early to avoid disappointment.

The dive sites are in some of the most exotic and pristine waters in the world. The exact days and dive locations will be determined by tides and local conditions. These will be announced on board.

The number of dives per voyage will be determined during the cruise by the Dive Masters on board. We try to dive, when possible, at least once and often twice per day.

Generally, dives are never deeper than 20 to 25 metres to allow for longer dives. Dives are often at 15 to 20 metres in depth.

THE ROYAL GEOGRAPHICAL SOCIETY (WITH IBG)

The renowned UK society, with the Institute of British Geographers, has opened up its archives to you and your fellow explorers. Our exclusive partnership gives you access to diaries, manuscripts, maps and photographs gathered during centuries of scientific exploration. As you voyage to remote destinations, you'll be informed and inspired by the journals of earlier adventurers.

*Bay of...
...
...
2000*

In an exclusive partnership, the renowned Royal Geographical Society (with The Institute of British Geographers) is providing detailed scientific and historical information to guests on Silversea Expeditions.

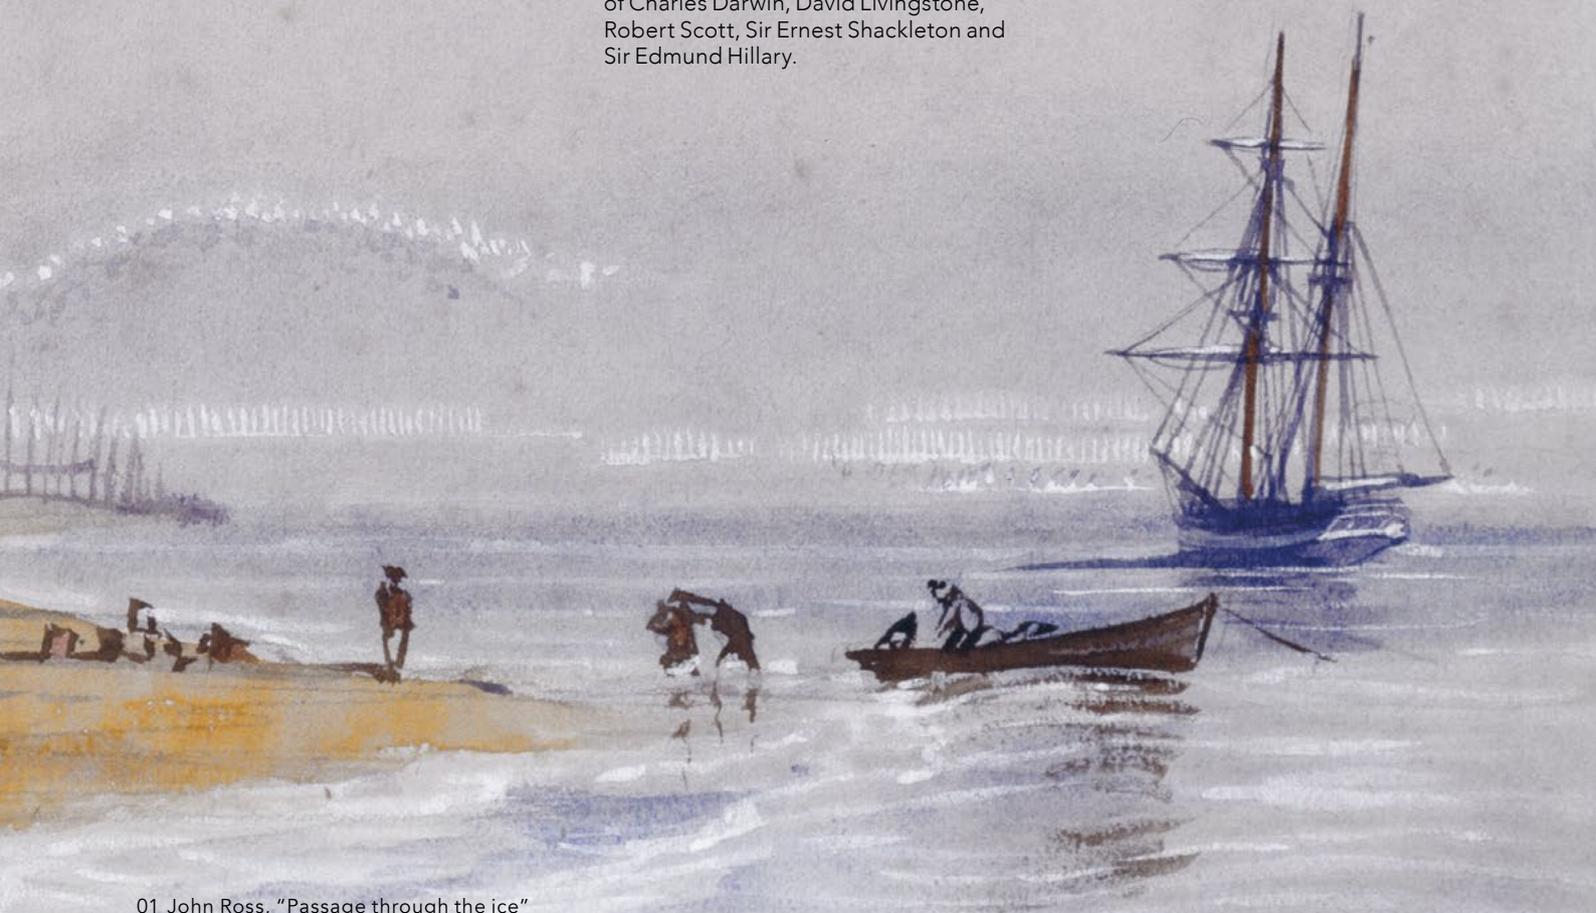

Founded nearly 200 years ago to advance geographical science, the Society, whose patron is Her Majesty Queen Elizabeth II, is sharing some of the world's most important geographical research and archive material.

The Royal Geographical Society has a powerful history associated with exploring, documenting and understanding the world's environments, people and places. Throughout its history, the Society has enhanced geographical and environmental education, been a champion of fieldwork and scientific expeditions and raised public understanding of the changing world.

The Society has been a notable supporter and communicator of the work of explorers and scientists, including those of Charles Darwin, David Livingstone, Robert Scott, Sir Ernest Shackleton and Sir Edmund Hillary.

Dating back as far as 1472, there are more than two million items in the Society's historic collection, including a million maps, half a million photographs, 250,000 books and many journals, manuscripts and iconic artefacts.

As a Silversea guest, you'll benefit from a wide range of specialist visual and written content, helping you learn more about the destinations you visit.

02 John Linton Palmer, "The town of Panama"

03 Thomas Baines, "Native boat between Sierra Leone"

SHACKLETON'S ENDURANCE EXPEDITION

100 Year Anniversary

To mark the centenary of the Endurance's arrival in the Southern Ocean, we're offering our guests a unique opportunity to retrace Shackleton's journey. You'll be joined on Silver Explorer by historians who've spent decades studying the Endurance voyage. You'll embark on expeditions to Elephant Island, where most of the stranded crew spent the winter.

AN ENDURING LEGACY

Join us, as we celebrate the centenary of Sir Ernest Shackleton's Endurance expedition. Thanks to our long-term partnership with the Royal Geographical Society (with IBG) you can access archival material and photographs that dramatically capture Shackleton's inspirational story of survival against all odds. Iconic images, originally on glass plates rescued from the sinking ship by photographer Frank Hurley, act as a powerful reminder of this epic feat of endurance. As you study these memorable images, securely stored at the Society for nearly a century, you'll appreciate the heroic exploits of Sir Ernest Shackleton and his team.

A specially curated gallery of images by the Endurance's official photographer, Frank Hurley, who documented the Endurance expedition on film and in iconic stills photography, is being created onboard *Silver Explorer*.

In addition, a major exhibition, "The Enduring Eye: the Antarctic Legacy of Sir Ernest Shackleton and Frank Hurley" is being held at the Society's South Kensington headquarters from 21st November 2015 – 28th February 2016, before a UK and international tour

through 2017. Silversea guests sailing on Antarctica voyages will have privileged access to the exhibition, with special tours arranged pre - or post-departure for Antarctica, led by a Society specialist.

On 8th August 1914, *Endurance* sailed from Plymouth bound for Antarctica. In January 1912, Roald Amundsen had become the first person to reach the South Pole. As Sir Ernest Shackleton put it: "After the conquest of the South Pole by Amundsen who, by a narrow margin of days only, was in advance of the British Expedition under Scott, there remained but one great main object of Antarctic journeyings — the crossing of the South Polar continent from sea to sea". A c.3000 km / 1800 mile land crossing of the continent.

However, it was not to be. In January 1915, only 200 miles from the Antarctic mainland, the *Endurance* was trapped between two ice floes in the Weddell Sea. The crew initially stayed put, hoping that the winds would change and free the ship. But after ten months, they were forced to abandon *Endurance*, and strike out across the ice in search of help.

The story of how Shackleton led his men in the Weddell Sea Party over ice and ocean to safety is one of the greatest tales of survival in human history.

Onboard *Silver Explorer* you'll discover how six men travelled in a tiny lifeboat across the Southern Ocean to fetch aid for their stricken crewmates. And how the rest of the party managed to endure 138 days in one of the most inhospitable places on earth.

Of course, your time in Antarctica will be much more agreeable. As always with Silversea, gourmet food, refreshing drinks and exceptional service come as standard. This is an opportunity to relive one of history's greatest adventures, while enjoying the supreme comfort of a Silversea Expedition.

AFRICA & THE INDIAN OCEAN

Pity the early explorers. Unlike you, they had no chauffeur-driven 4x4 vehicles to traverse the desert dunes. They had no opportunities to fly low over seal colonies, journey overland in 1930s train carriages or visit fishing villages built on stilts. Few spotted the endangered Damara tern or sparring Namibian horses. You, however, have back-up on hand. Explore with our experts.

LÜDERITZ, NAMIBIA

Visit the abandoned diamond-mining town of Kolmanskop. Today, it's mostly a ghost town of crumbling ruins as the stately homes, eroded by the wind, are gradually becoming sand-covered. However, a museum has been established and a number of buildings restored.

This optional excursion may only be reserved onboard.

NAMIBE, ANGOLA

04

TAKORADI, GHANA

Explore the Gold Coast area. Drive to Elmina Village where we'll tour Elmina Castle, which was built in 1482 and is said to be the oldest European building south of the Sahara. "I determined never to stop until I had come to the end and achieved my purpose."

DR. DAVID LIVINGSTONE

In the 15th century, Portugal was the first European country to undertake maritime exploration of West Africa and the Indian Ocean coastline of the continent, joined later by England, the Netherlands, France, Sweden, Denmark and Prussia, all seeking to command commercial interests in exploiting natural resources — and the slave trade.

European exploration of Africa's interior began in earnest in the 18th and 19th centuries. The African Association, founded in London in 1788 (later to become part of the newly formed "Geographical Society of London" in 1830) initially concentrated on exploration of West Africa before extending to the East in search of the source of the Nile. Other geographical feats included the major expeditions undertaken by the extraordinary Scottish explorer and missionary Dr. David Livingstone, whose mapping of Africa was in part funded by the Society.

By the late nineteenth century, women had also begun to travel and explore; figures such as Mary Kingsley, whose best-selling book, *Travels in West Africa* (1897), palpably evokes her excitement at undertaking her first journey, shedding light for the first time on Africa for the early modern traveller.

Today, the Society's internationally renowned African holdings reflect this long standing connection with the continent, including some of the earliest maps along with photographs, watercolours, artefacts and archival material, spanning a period of over 500 years.

Explore this Aleutian settlement, abandoned in the 1960's. Great Horned Owls nest near the church. During a Zodiac®-cruise in the bay kittiwakes, Double-crested and Pelagic Cormorants, as well as good numbers of Common Murres and Tufted Puffin can be seen.

SIRIUS POINT, ALASKA

We intend to do a Zodiac® tour along the cliffs of Sirius Point, which can only be described as "magical". We search for Least and Crested Auklets, Peregrine Falcons and Laysan and Black-footed Albatrosses, all the while keeping an eye open for the Sperm Whales that frequent the area.

PETROPAVLOVSK-KAMCHATSKY, RUSSIA

It's the only major city on the peninsula and one of the oldest. Petropavlovsk is also the scientific and cultural centre of the region, and today we'll see why as local guides take us on a comprehensive tour including the museum of ethnography and natural history, the art school and the gold-domed Russian Orthodox Cathedral.

MATUA ISLAND, RUSSIA

Matua is home to one of the Kuril's most active volcanoes, with more than 14 documented eruptions in the past 250 years. Learn about the Japanese military base that was set up here during WWII and how the Japanese used to capture geothermal heat from the volcano to keep the runway open during winter.

"In summer a land of sound — a land echoed with the voices of birds, the ripple of running water... in winter a land of silence, its great rivers glimmering in the moonlight, wrapped in their shrouds of ice."

SIR WILLIAM BUTLER

Russian explorers were the first to come to this wild and beautiful landscape, led by stories of the natural resources it might provide, whilst seeking a fabled land bridge between continents. From the arrival of the Imperial Russian Naval expedition led by Vitus Bering in 1741, Alaska proved a rich new source of fur and became a magnet for traders, remaining under Russian control until the "Alaska Purchase" by the United States in 1867.

Among the first to document the beauty of the wilderness was John Linton Palmer, a nineteenth-century naval surgeon whose career took him all around the Pacific and to the northwest coast of America. His sketches of North-West Coast Indian and Inuit peoples and their artefacts, now in the Collections of the Society, provide a unique, pre-photographic record of the people and places he encountered.

Later came the exploits of figures including the railroad magnet Edward Harriman whose ambitious Alaskan

expedition of 1899 brought scientists to study the region for the first time and the dramatic recording of the Katmai eruption of 1912, and subsequent exploration of the newly-created "Valley of Ten Thousand Smokes".

A TASTE OF YOUR ITINERARY

NEW ISLAND, FALKLAND ISLANDS, UK

Once ashore, we'll hike into the rocky cliffs to a rookery where rockhopper penguins and Blue-eyed Shags share the same nesting area. We'll observe black-browed albatross going about their daily routines.

STANLEY, FALKLAND ISLANDS

Stanley, capital of the remote Falkland Islands, has a distinct British ambience. Stroll through the charming streets of this colourful little town, lined with quaint cottages and a variety of traditional pubs. Visit the 19th-century Anglican cathedral.

SOUTH GEORGIA

This breath-taking destination of towering snow-covered mountains, mighty glaciers, and low-lying grasslands attracts an astounding concentration of wildlife. South Georgia is linked to the early Antarctic explorers. Captain James Cook first stepped ashore in 1775, but perhaps more famous is Ernest Shackleton's arrival in 1916 following the sinking of his ship *Endurance*. Visit Shackleton's grave and the whaling museum at Grytviken. At Cooper's Bay, enjoy a Zodiac® cruise to see numerous breeds of penguins, such as macaronis and chinstraps, on the rocks and waters surrounding the island. Grytviken, a historic whaling station, is now a museum. At the burial site of the famous explorer Sir Ernest Shackleton, we'll toast the great explorer and his many accomplishments. Salisbury Plain is a favourite breeding ground for hundreds of thousands of King Penguins — it's amazing to see how they completely cover the beaches and hills.

ANTARCTIC PENINSULA

Brown Bluff is an ice-capped, 745-metre-high, flat-topped mountain with a prominent cliff of reddish-brown volcanic rock. Adelie and Gentoo Penguins, Kelp Gulls, and Pintado Petrels use this as a breeding area. Paradise Bay is well named for its spectacular scenery of mountains, glaciers and icebergs.

Have your camera ready to capture the magical colour of a midnight sunset while we are heading further south.

ANTARCTIC PENINSULA

Sail to Antarctica, where every turn can reveal a new and breath-taking adventure. As the pack ice becomes thicker, you will move closer into Antarctica's vast white wilderness. The further south we go the more you will find ice. Remote and otherworldly as Antarctica is, the spectacular iceberg sculptures and calving glaciers are irresistible. The possibility of up-close encounters with marine mammals, watching seals sunbathing on slow-moving ice floes or humpback, Minke, and orca whales surfacing from below the frigid waters are truly unique. Each day you will attempt Zodiac® departures, and, if conditions permit, you will cruise amidst colourful icebergs or step ashore to visit a variety of penguin rookeries and perhaps scientific research stations on complimentary excursions led by our team of natural history experts.

Cuerverville Island, Errera Channel

Large, bare rock areas provide nesting sites for Gentoo Penguins. Snow Petrels and Pintado Petrels also may be seen whilst Wilson's Storm-petrels nest in the higher scree of the island.

Paradise Bay

The bay is well named for its spectacular scenery of mountains, glaciers and icebergs. From the ship, observe Argentina's "Base Almirante Brown", one of many Antarctic research stations. Here, you'll actually set foot on the continent of Antarctica.

Paulet Island

As you arrive, the sight of Adelie Penguins covering the entire island may well amaze you. The island is home to 80-90 thousand Adelies that come here to breed. On a nearby hill, view a massive colony of Blue-eyed Shags.

"Difficulties are just things to overcome, after all."

SIR ERNEST SHACKLETON

The Society is synonymous with Antarctic exploration. One of the first papers to be read at the newly-founded Geographical Society of London in 1830 was by a Lieutenant Kendall, describing his charting of Smith's Island (South Shetland Islands) in 1829. Kendall noted that "before leaving, we buried a register thermometer, so that any future visitor might become acquainted with the extreme ranges of this inhospitable climate". As an example of early polar science, Kendall reflected the objectives of this innovative new organization.

In 1893 its charismatic President, Sir Clements Markham, "determined to promote the cause of Antarctic exploration". So began the exhaustive planning for expeditions led by Captain Robert Falcon Scott on the purpose-built vessel the *Discovery* (1901-04), and later the *Terra Nova* (1910-13).

Support was also given to early expeditions led by Sir Ernest Shackleton on the *Nimrod* (1907-09), *Endurance* (1914-17) and *Quest*, or Shackleton-Rowett Expedition (1921-22); as well as engagement with other international figures, including the Norwegian Roald Amundsen. The Society's historical collection relating to Antarctica

provides a wealth of artefacts, photographs, archival material, maps, charts and books which tell this important story from its beginnings to the present day with a focus on the early explorers who made an unrivalled contribution to our understanding of the great continent of Antarctica.

BEAR ISLAND, NORWAY

As we near this Arctic island, now a nature reserve, we'll see thousands of seabirds diving into and out of the island's steep cliffs. With our Zodiacs® we'll explore the rugged coastline and if weather conditions are favourable, make a landing.

CRUISE & EXPLORE SVALBARD

Join us for a journey along an expansive archipelago of the Arctic Ocean between the North Pole and Norway. Svalbard is one of the last major European wilderness areas with pristine mountains, fauna, deep fjords, picturesque icebergs, and massive ice sheets. Our goal on this voyage is to explore the eastern and least-visited sections of Svalbard's breathtaking and dramatic Spitsbergen. With the strengthened hull of *Silver Explorer*, we have the perfect platform to search for walrus and Polar Bears as we devote at least one day to exploring the pack ice north of Spitsbergen. Conditions permitting, our Expedition Leader may choose to take us out in the Zodiacs® for an even closer look.

Bellsund

Pushing about 50 miles (80 kilometres) into Spitsbergen lies the 12-mile wide Bellsund. At the entrance of the fjord we're likely to encounter some Common Eiders, Arctic Terns, and Arctic Skuas. Snow Bunting and Purple Sandpipers are also common in the area.

Edgeøya

Enter the realm of the Polar Bear on the third-largest island in the Svalbard archipelago. Conditions permitting, we'll go ashore at the hard-to-get-to Diskobukta, where we'll discover interesting fauna and flora and take a walk amongst thousands of kittiwakes and a few Arctic Foxes.

ILULISSAT, GREENLAND (UNESCO WORLD HERITAGE SITE)

Just after sunrise, be out on deck to see the fjord of the northern hemisphere's most active glacier – Jakobshavn – often surrounded by icebergs in all shapes and sizes and in varying shades of white and turquoise. Known as the birthplace of icebergs, the Ilulissat Icefjord produces nearly 20 million tons of ice each day. While here, we may have the opportunity to see a demonstration of ancient fishing methods and enjoy some locally caught and prepared fish. During our guided walking tour of Ilulissat, we will visit the local history museum, located in the former home of Greenlandic folk hero and famed polar explorer Knud Rasmussen.

POND INLET, NUNAVUT, CANADA

Pond Inlet is considered one of Canada's "jewels of the North". Several glaciers and mountain ranges nearby make this one of the most picturesque communities. Pond Inlet is known as a major centre of Inuit art, especially printmaking and stone carving.

MILNE INLET AND NAVY BOARD INLET, NUNAVUT, CANADA

The Sirmilik National Park covers much of this area and harbours large populations of Thick-billed Murres and Black-legged Kittiwakes which we intend to see. The importance this area has for birds is shown in its designation as Important Bird Area (actually three different ones) and Bylot Island Migratory Bird Sanctuary. Canada's largest breeding colony of Greater Snow Geese in the Canadian High Arctic is on this island.

- 01 Ilulissat, Greenland
- 02 Polar Bear and cub

- 04 Upernavik, Greenland

PRINCE LEOPOLD AND BEECHEY ISLAND, NUNAVUT, CANADA

Fringed by a narrow beach, windswept and barren, Beechey Island is associated with the tragic Franklin Expedition looking for the Northwest Passage. Three graves of members of the expedition as well as a cairn and some small buildings were found here during the search for the survivors of the expedition. Parts of Northumberland House, a supply depot and emergency shelter dating back to the 1850s and the Belcher Expedition, can still be seen on the island today.

SAM FORD FJORD, NUNAVUT, CANADA

The Sam Ford Fjord area of Baffin Island is one of the most impressive concentrations of big walls in the world. It is a 68-mile waterway lined with vertical walls, results of ancient glaciers. What makes this area truly unique is that many of these walls rise straight out of the deep fjords.

CLYDE RIVER

Whale hunting is still being allowed and apart from the meat that is being eaten, bones are an important "by-product" of the catch: The local carvers produce interesting artefacts and the "Kangiqtugaapik" artists are famous for their whalebone carvings. Apart from whalebone, stone sculptures are also created here from a light green stone found north of Clyde River. The local carvings and sculptures are highly sought after.

ISABELLA BAY, NUNAVUT, CANADA

Some 150 to 200 Bowhead Whales, once extensively hunted, have found a protected area where they can feed and socialise. An extensive area off the coast of Baffin Island, known as Ninginganiq, has become Canada's newest proposed National Wildlife Area.

The largest colonies of cliff-breeding seabirds are mainly located on Storstappen, the biggest of the islands. While we'll be circumnavigating Storstappen, looking for puffins, kittiwakes, guillemots, Razorbills, fulmars, cormorants and Arctic Skuas, keep an eye out for seals.

MURMANSK, RUSSIA

Murmansk is the world's largest city north of the Arctic Circle. We'll go on a city tour visiting the major cargo port and its impressive fleet of nuclear-powered icebreakers, the Orthodox Church, Savior-on-Waters, and a lighthouse with panoramic views of the city.

SHOINA VILLAGE AND KANIN PENINSULA, RUSSIA

Because of extensive trawling, the sea floor was destroyed, leading to sand dunes spreading across the landscape. Half the village is now buried under sand and only 300 souls still remain in Shoina. We'll have a look at the village and sand dunes, but another reason for us to go here is the Shoininsky State Nature Reserve just to the north.

BOLSHOI SOLOVETSKIY AND ZAYATSKIY ISLANDS, RUSSIA

"... the most beautiful little land-locked bay that the heart of a sailor could desire."

ROALD AMUNDSEN DESCRIBES HIS BASE GJOA HAVEN ON KING WILLIAM ISLAND

The search to discover the Northwest Passage linking the Atlantic and the Pacific led to a series of expeditions throughout the nineteenth-century. Often inadequately clothed and with insufficient rations (and reticent to seek advice from the indigenous Inuit peoples of the region, whose expertise was second to none) these first explorations of the Arctic were to set the scene for future explorations of Antarctica.

Much was learnt and lost in the icy chill of the Arctic: from the early explorations of Sir William Edward Parry to the tragic fate of Sir John Franklin's lost expedition on board the ships Erebus and Terror – and the bravery of the subsequent expeditions that sought to find him –

uncover the thrilling and spine-tingling stories behind one of the most famous episodes in the history of exploration.

It was Roald Amundsen, the Norwegian explorer who was first to find the elusive passage between oceans on his 1903-06 expedition aboard his small boat the Gjøa which navigated the narrow leads of water to achieve one of the greatest achievements of early twentieth century exploration.

01

A TASTE OF YOUR ITINERARY

SADO, JAPAN

Visit Tori Forest Park to see the successful “reintroduction” of Crested Ibises into Japan — a bird that was down to a total world population of 12 birds in 1981. At that time the last five wild ibises found in Japan were taken into captivity on Sado and Japan and China cooperated in a breeding programme.

KANAZAWA, JAPAN

“Kenrokuen” is one of the most famous gardens in Japan. Located next to Kanazawa Castle, “Kenrokuen” is classified as “One of the Three Gardens of Japan”. Visit the Higashi Chaya Gai Geisha District, a National Cultural Asset.

SAKAIMINATO, JAPAN

ULSAN, SOUTH KOREA

The modern city of Gyeongju is often called “the museum without walls”, and its historical area is a UNESCO World Heritage Site. Here the southern part of Korea was first unified under the Silla Kingdom and many archaeological remains can be seen in the area.

- 02 Korakuen Garden, Okayama

02

MOJI, JAPAN

Hiraodai Limestone Plateau is Japan's most representative karst plateau. Approaching the area, one could mistake the pure white limestone scattered throughout the landscape for sheep grazing in the grass.

HIROSHIMA AND MIYA-JIMA, JAPAN

The Peace Memorial Museum surveys the history of Hiroshima and the advent of the nuclear bomb, focusing on the events of 6 August 1945 and the human suffering as a result of the bomb.

OKAYAMA, JAPAN

The "Korakuen" Garden was severely damaged by bombs in WWII but the descriptions and paintings from the Edo period permitted an exact reconstruction. Designed in the "Kaiyu" — style it's one of the "Three Famous Gardens" of Japan and has been designated a "Special Scenic Location".

A TASTE OF YOUR ITINERARY

WYNDHAM, AUSTRALIA

Wyndham is our gateway to the breathtaking Bungle Bungle mountain range in Purnululu National Park, a World Heritage Site. For more than 350 million years, nature has shaped geological formations of giant orange and black striped domes rising out of the ground, a landscape unlike anything you’ve ever seen.

KIMBERLEY COAST, AUSTRALIA

A flexible itinerary allows us to take advantage of the different natural phenomena. Here are some of the places we may visit during our time in this wondrous region:

Talbot Bay (Horizontal Falls)

The region’s tides of close to 36 feet (or nearly 11m) create an amazing spectacle. Depending on whether the tides are ebbing or flowing, we board our Zodiacs® for an exhilarating ride through the falls.

Optional Excursions

MITCHELL FALLS FLIGHT & HORIZONTAL FALLS SPEEDBOAT

For those wishing to explore the Kimberley’s vast interior, an optional helicopter flightseeing excursion to the Mitchell Falls – four tiers of waterfalls plunging into pools that flow out into the Mitchell River – can be arranged.

An optional speedboat excursion* can also be arranged to the Horizontal Falls, described by David Attenborough as “one of the greatest natural wonders of the world”.

This optional excursion may only be reserved and paid for onboard.

Montgomery Reef

Observe the amazing tidal changes that take place here. Timing of the tides is everything today — low tide reveals up to 13 feet (4m) of reef exposing a river that allows access to this amazing semi-submerged world. As the tide continues to ebb, we're surrounded by cascading waterfalls up to 10 feet high (3m), an abundance of reef birds and every imaginable sea creature, including turtles, manta rays and, if we're lucky, the elusive dugong.

Hunter River

The Hunter River is home to an immense mangrove. Be sure to look for the image of the Indian Head in the soaring red sandstone cliffs as we set out in Zodiacs® to explore the narrow mangrove channels, watching for numerous bird species and keeping an eye out for the *Crocodylus Porosous* (saltwater crocodile).

King George River & Falls

At 260 feet (80m), the twin cascades are among the highest in Australia. We drop anchor at the mouth of the river and ride Zodiacs® up this waterway, weaving through an amazing landscape of near vertical red rock formations and a parade of wildlife.

"New Holland is a very large Tract of Land. It is not yet determined whether it is an island or a main Continent; but I am certain that it joyns [sic] neither to Asia, Africa, or America."

WILLIAM DAMPIER

A land of rich colours and stunning contrasts, the Kimberley region is well-documented in the Collections of the Society. The early explorations of a reformed pirate, William Dampier, led to the first truly scientific mission funded by the British Government. His account of the voyage, *A New Voyage Around the World* (published in 1699) is rightly seen perhaps as the first true travel book. A sage figure, where Dampier was unable to explain or interpret what he saw, he recorded everything for posterity, for "better qualified persons who shall come after me" to the first explorations of George Grey and Franklin Lushington in the 1830s, the later expeditions of Alexander Forrest and A.W. Canning and the exploration of the region's diamond mining past.

Further south, the Australasian Antarctic Expedition (1911-14), led by Australian geologist Douglas Mawson, explored Macquarie Island and the Antipodes while en route to the continent of Antarctica. In a prelude to the extraordinary photographs he captured during the Endurance Expedition (1914-17), the Australian photographer Frank Hurley documented the expedition and the places it visited, honing his skills.

Delve into the results of this expedition's discoveries, and explore the accounts of earlier nineteenth-century whaling, sealing and exploratory voyages, including those of Dumont D'Urville in 1839 and polar explorer James Clark Ross, and learn more about the history behind the naming of islands in the Sub-Antarctic.

BROOME, AUSTRALIA

Wines of the West

Margaret River has forged a reputation for making wines of balance and subtlety. Whether it's due mainly to the climate and soils here, or whether it is down to the region's isolation is a topic of some debate. But the full-throttle, super-ripe styles that can still be found in Barossa and Coonawarra rarely occur here. As in much else, when it comes to winemaking, Margaret River and Western Australia march to a slightly different beat.

A TASTE OF YOUR ITINERARY

PANAMA CANAL, PANAMA

The Panama Canal is an engineering marvel connecting the Atlantic and Pacific Oceans. Three sets of locks work as water elevators lifting ships to the level of Gatun Lake, 85 feet (26 metres) above sea level, and later lowering them again to sea level on the other side.

BAY OF SAN MIGUEL, DARIEN JUNGLE, PANAMA

We'll explore this pristine, seldom visited area by Zodiac® or local canoe, navigating up the tidal Mogue River. At the conclusion of our river adventure, we'll hear the sound of distant drums welcoming us to the remote Embera Village. The Darien Jungle is rarely visited by outsiders (fewer than 1,000 tourists visit each year), and the Embera are one of several indigenous groups that live in relative isolation.

UTRIA NATIONAL NATURAL PARK, COLOMBIA

Our explorations of the Colombian Pacific coast continue with a visit to Utria National Natural Park. From coral reefs and mangroves to the marine environment, tropical rainforest and rocky beaches where sea turtles come to lay their eggs, few places in the world encompass the diversity of Utria's ecosystems. The Expedition Team will offer a choice of trail hikes.

ISLA DE LA PLATA, ECUADOR

The island's name was derived from the legend of swashbuckling pirate Sir Francis Drake's buried silver treasure. Best known for its fauna, which is amazingly similar to that of the Galápagos Islands, Isla de la Plata is a delightful place for birding, photography and long nature walks.

"Humboldt stirred in me a burning zeal to add even the most humble contribution to the noble structure of natural science."

CHARLES DARWIN

From the extraordinary experiences of the Scottish settlement of Darien in the 18th century – which effectively bankrupted the Scottish nation leading to union with England – to the later plans for the new Panama Canal, explore the rich history of travel and exploration in this region.

In 1799, Alexander von Humboldt – inventor, geologist, botanist and meteorologist – began an epic five-and-a-half-year expedition, accompanied by the French botanist Aimé Bonpland, including his journey through Colombia. As then part of the Spanish empire, the country's borders were closed to foreigners and its interiors almost completely unexplored.

01

02

Von Humboldt's enterprise earned him the epithet of "a second Columbus" and the expedition came to be known as, "the scientific discovery of America" and he became a direct and passionate influence on the later work of Charles Darwin.

"We have only come to America to take water to Asia."
GEORG WILHELM STELLER

A land of dramatic volcanic activity and remarkable wildlife, the Russian Far East is documented in the Collections of the Royal Geographical Society (with IBG) through historic early maps and charts, some of the earliest documentary photographs of the region, and in Russian language journals and other documents which can only be found in Helsinki, St. Petersburg, and at the Society's London home.

Explore the work of Danish-born navigator Vitus Bering (the first European scientific explorer of Siberia), whose work was inspired and sponsored by Peter the Great and later by Czarina Catherine the First. Later, celebrate the important scientific expedition of 18th century French explorer Lapérouse, whose 1786 voyage was the first European scientific expedition to explore the Sea of Okhotsk. From this remarkable and isolated land of rugged beauty, much has been learnt that enhances our knowledge of geography, science and cultural history over the past 300 years; the Society's Collections provide a unique window onto the work of these early travellers and their expeditions for a modern audience.

HAVAMAL

From the remote corners of the British Isles come tales of early travellers, including Dr. Johnson and James Boswell, whose journey through the Western Isles is documented in the remarkable 16th century maps of Iona and the Isle of Mull by Herman Moll; a safe haven, Mull's Tobermory harbor is thought to have been the resting place of one of the ships from Spain's Armada which was blown off course following the famous battle against Queen Elizabeth I's Navy led by Sir Francis Drake in 1588. Visited in 1847 by Queen Victoria and her husband Prince Albert, the Hebrides reinforced the royal couple's love of the Scottish Highlands.

GALAPAGUERA CERRO COLORADO, SAN CRISTÓBAL, GALÁPAGOS

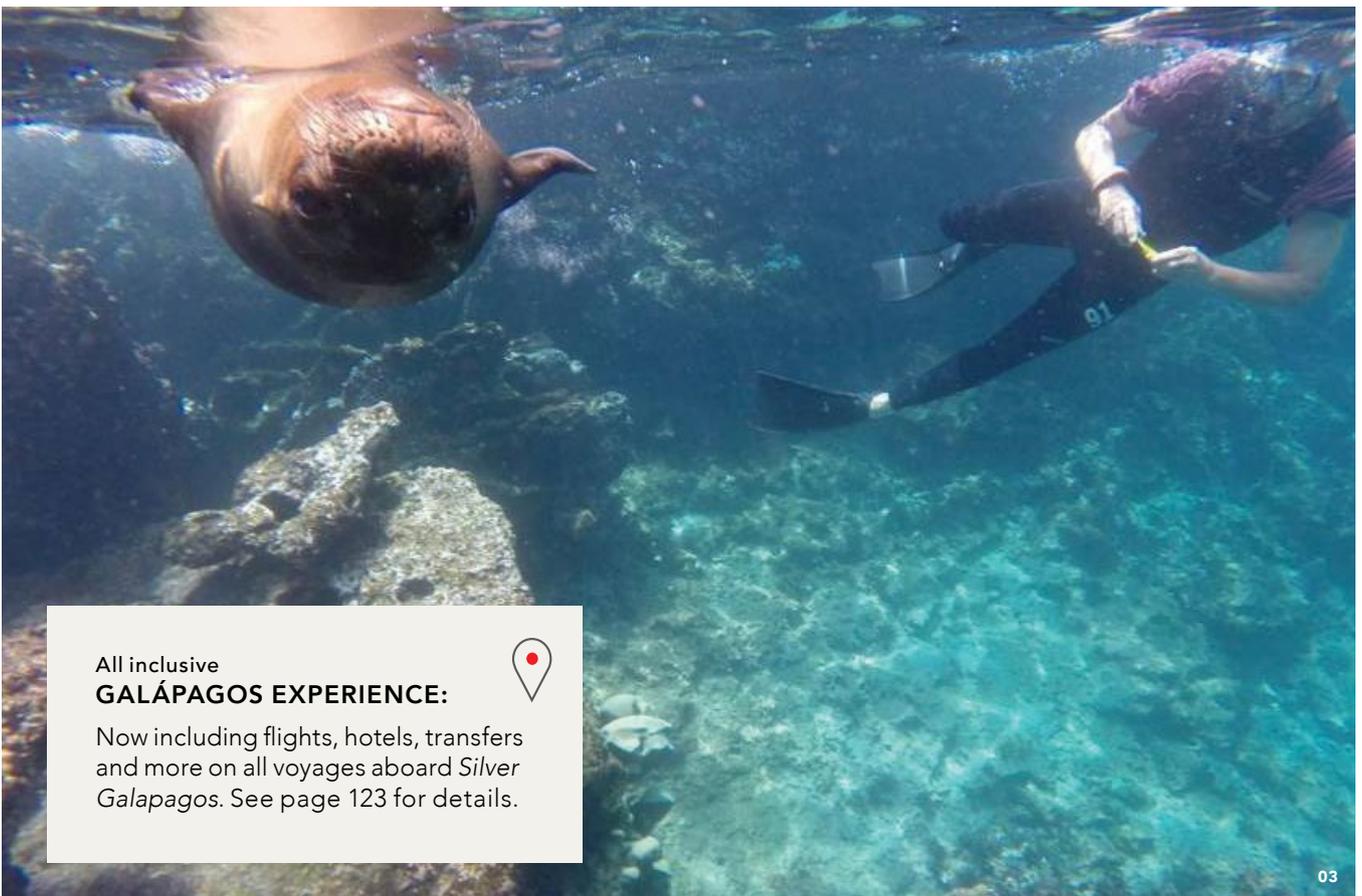

The most emblematic animal in the archipelago is the Galápagos Giant Tortoise. Over-hunting and competition with introduced animals left its numbers close to extinction. Nonetheless, since the late 1950s, the tenacious work of the Galápagos National Park Service rangers and the scientists of the Charles Darwin Research Station has been bringing those numbers back.

LOS GEMELOS, SANTA CRUZ, GALÁPAGOS

The second largest island in the archipelago is home to both the largest human settlement and the second largest wild tortoise population. There's a good chance to spot land birds, especially one of the rare and endemic Galápagos Martins.

A TASTE OF YOUR ITINERARY

BAHÍA DARWIN, GENOVESA ISLAND, GALÁPAGOS

Take a walk on the sandy beach of Darwin Bay, home to one of the world's largest Red-footed Booby nesting colonies. Yellow-crowned Night Herons feed near tidal lagoons, while hundreds of Swallow-tailed Gulls nest in the cliffs.

SULLIVAN BAY, SANTIAGO, GALÁPAGOS

See lava flows that are not much older than a hundred years. Here the very high temperature of the molten material, as well as its gas content, had caused the surface to be quite smooth.

RABIDA, GALÁPAGOS

Here we can see Darwin's finches, lava lizards and Galápagos Mockingbirds. Take a walk along the cliffs where the red rocks, green Palo Santo trees and blue turquoise sea create landscapes of stunning contrast.

EDEN ISLET, SANTA CRUZ, GALÁPAGOS

Eden is a small, eroded tuff cone and an excellent example of the unique geology of the Galápagos. It is home to Great Blue Herons, sea lions, and Blue-footed Boobies.

PUNTA PITT, SAN CRISTOBAL, GALÁPAGOS

San Cristóbal is one of the oldest islands in Galápagos and the well-eroded landscape of Punta Pitt creates a dramatic landscape. We may see three species of boobies here — Red-footed, Blue-footed and Nazca, as well as both the Great and Magnificent Frigatebird.

THE FAUSTO LLERENA BREEDING CENTRE, SANTA CRUZ, GALÁPAGOS

At the breeding centre we'll see dome-shaped and saddle-backed tortoises, as well as baby Giant Tortoises up to five years old that are waiting to be returned to their home island. There's also an exhibit on Galápagos land iguanas.

BAHÍA GARDNER, ESPAÑOLA, GALÁPAGOS

Relax on the white sands of this idyllic beach as the water laps gently in front of you. You may even spy some iguanas on the shore. Further out you can snorkel with large schools of colourful tropical fish and an occasional Manta Ray, while a Whitetip Shark naps on the bottom. The largest seabird to nest in the Islands, the Waved Galápagos Albatross, may be seen seasonally from April through December.

"It is not the strongest or the most intelligent who will survive but those who can best manage change."

CHARLES DARWIN

Charles Darwin became a Fellow of the Royal Geographical Society, London in 1838 at the age of 29, two years after his return from the voyage of HMS Beagle. Darwin attended Society lectures and contributed to the Society's Geographical Journal, also reviewing the content of articles submitted to the Society for publication.

01

A frequent user of the Society's Library following his circumnavigation, Darwin examined samples of Mastodon or Elephant tusk from Peru with the Society's Librarian, and requested copies of charts from the Society's collection relating to the western Pacific Ocean which he had visited during the voyage of HMS Beagle. Darwin was invited to join the governing Council of the Society in May 1840. He continued to make use of the Society's library, requesting maps, books and charts to aid his scientific research work and often asking for particular items to be delivered for collection at his club, The Athenaeum in Pall Mall, or his home in Kent.

Using the Society's Galápagos-related items, today we are able to present some of the early influences on Darwin and his day-to-day work in the Islands, as well as highlighting some of the lesser-known figures associated with the archipelago, focusing on the work of Captain Fitzroy, the Captain of the Beagle and earlier characters, including William Ambrosia Cowley, the British buccaneer, who described the Galápagos as the "Enchanted Islands".

"It is perhaps to the kindness with which those navigators conducted themselves towards this people that we owe the confidence they seemed to place in us."

FRENCH EXPLORER LA PEROUSE CREDITS CAPTAIN COOK

Explore the waters and islands of the Pacific Ocean through the accounts of early European scientists and navigators, including the îles sous les vents of French Polynesia, first named by Captain James Cook as part of the "Society Islands" archipelago.

Share in the discoveries made by the nineteenth-century French explorers Captain Louis Isidore Duperrey and Dumont D'Urville, aboard the Coquille. Their scientific discoveries were recorded in the seminal account "Voyage Autour du Monde", a five volume account by D'Urville, complete with remarkable illustrations of people and places never before seen in Europe and based on over 5,000 botanical and insect specimens brought back to Paris.

A successful first foray into the Pacific in 1800 led French explorer Louis de Freycinet to undertake a voyage of

01

02

circumnavigation in command of Uranie in 1817. His prime motive was to gather intelligence about the people and places of the Pacific in addition to collecting new botanical specimens. He was accompanied by Louis-Isidore Duperrey (1786-1865) who acted as chief surveyor for the expedition. Perhaps most remarkably, de Freycinet was accompanied on this second expedition by his wife Rose; it was unthinkable for a woman to travel on a voyage of this kind and in order to board ship Rose had to be disguised as a French naval officer. Later, photographers, archaeologists and anthropologists have worked in the region, including early intrepid traveller Mrs Patrick Ness, and the thrilling travel accounts of Lucy Evelyn Cheesman, an entomologist who ventured into the wilds of the Society Islands, Papua New Guinea, and Indonesia.

ANTARCTIC PENINSULA

Remote and otherworldly, Antarctica is irresistible for its spectacular iceberg sculptures and calving glaciers, and for the possibility of up-close encounters with marine mammals.

CUVERVILLE ISLAND, ERRERA CHANNEL

Large, bare rock areas provide nesting sites for Gentoo Penguins. Snow Petrels and Pintado Petrels also may be seen whilst Wilson's Storm-petrels nest in the higher scree of the island.

PAULET ISLAND

As you arrive, the sight of Adelie Penguins covering the entire island may well amaze you. The island is home to 80-90 thousand Adelies that come here to breed. On a nearby hill, view a massive colony of Blue-eyed Shags.

PORT FOSTER, WHALERS BAY (DECEPTION ISLAND)

Deception Island is home to a collapsed volcano and an excellent example of a caldera where it's believed that the volcano's summit collapsed with one section sinking far enough to allow the sea to flood the interior. "Science will I hope be greatly benefitted, geography can scarcely fail to gain a good deal, and I am confident that we shall find the key to much lost history."

PERCY FAWCETT

Sir Clements Markham, later to become President of the Royal Geographical Society, spent his early career as a midshipman, sailing between the ports of Chile and Peru. It was at his instigation that chinchona plants, from which quinine could be extracted, were exported to India to aid in the reduction of malaria. In later life his connections with the region remained strong and the Society's Collections reflect the diversity of the landscapes of South America through maps and early historic watercolours and photographs.

01

02

This includes the work of the nineteenth century naval surgeon, John Linton Palmer, who was passionately interested in recording the natural history and ethnography he witnessed on his voyages, including the Juan Fernandez Islands, where eighteenth century castaway Alexander Selkirk, the original Robinson Crusoe, was stranded. Other highlights include the delicate and evocative watercolours of Victor Coverley-Price who documented the beauty of the Peruvian landscape as he explored its river systems in the 1930s, often at great peril. Unique and accessible images of the peoples and places of South America provide a sense of place for the modern traveller.

On a Silversea Expedition, off-the-beaten-track destinations will be effortlessly brought within reach. In considerable comfort, you'll cruise to far-off places that are way outside your comfort zone.

SILVER EXPLORER — 132 GUESTS

Silver Explorer has been designed specifically for navigating waters in some of the world's most remote destinations, including both polar regions. A strengthened hull with a Lloyd's Register ice-class 1A notation for ships allows her to safely push through ice floes with ease. There's plenty of deck space for observing the natural wonders and whenever possible the Captain will manoeuvre the ship to provide spectacular views.

SILVER GALAPAGOS — 100 GUESTS

With sleek lines and a proven skill for navigating the waterways throughout the UNESCO World Heritage Site islands, *Silver Galapagos* is naturally suited to in-depth explorations of this spectacular region. Complimentary exploration activities include Zodiac tours, snorkelling, kayaking and nature hikes led by highly experienced guides certified by the National Park of the Galápagos.

SILVER DISCOVERER — 120 GUESTS

Silver Discoverer's small size and shallow draft allows exploration of rugged coastlines and archipelagos that are inaccessible to bigger ships. With all ocean-view suites and plenty of deck space, she's the perfect platform for viewing remote untamed landscapes. Her fleet of 12 Zodiacs allows guests to land on isolated shores and explore wetlands and submerged ecosystems up-close and in-depth. Unusual for an expedition vessel, she has a small swimming pool offering a refreshing dip after warm-weather excursions ashore.

SILVERSEA AIR PROGRAMME*

From shipping your bags to planning your adventures ashore and arranging your roundtrip flights, our commitment to superior service begins before you even step on board. Leave it to Silversea to handle all the details in just the way you prefer for the most complete and personalised travel experience available.

Silversea Air Programme

The Silversea Air Programme extends Silversea's premium level of service beyond your ocean voyage for the ultimate ease in travel. Silversea maintains relationships with most international carriers to ensure that the best airfares and schedules are available in order to make travelling to and from your cruise as convenient as possible. Silversea's standard air package includes roundtrip Economy Class air fare and transfers between the airport and pier on embarkation and disembarkation days. In conjunction with select flights, an overnight stay at a Silver Shore Hotel property will be added to the air package at the time of booking as an optional component and for an additional price.

Silver Galapagos Air Package

For Silver Galapagos voyages guests are strongly recommended to purchase the *Silver Galapagos Air Package* ("Galapagos Air Package") to ensure a smooth arrival and departure in Ecuador. The Galapagos Air Package includes Economy Class Air between either Quito or Guayaquil to/from the Galapagos; Galapagos National Park entrance fees and Galapagos Immigration fee. In addition, Silversea recommends the purchase of airport/hotel transfers in Quito and Guayaquil, two night pre-hotel accommodations in

Quito and, if necessary, use of a hotel dayroom in Guayaquil (for those with late evening flight departures). Guests purchasing the Galapagos Air Package will be met by a Silversea host at Quito airport to assist them with the airline check-in and immigration process, and upon arrival in Galapagos our host will welcome and guide guests through the park entrance process and direct them to waiting ground transportation.

Business Class Air Packages

Arrive rested and relaxed by taking advantage of Silversea's attractive upgrade rates in Business and First Class. Most air carriers offer fully flat 180° sleeper seats on the transoceanic/international flights, separate check-in queues for business and first class passengers, access to airport lounges, amenity kits, and an increased baggage allowance. Be at ease, travel in style, begin and end your Silversea Cruise with an upgrade to Business or First Class.

Silversea Air Programme Advantages

- Book now, pay later — lock in the price of your air ticket at time of cruise booking, air ticket payment due together with cruise final payment.
- No fees, prior to ticketing, for making changes to your airline schedule. (Additional air costs still apply, not available on promotional air packages.)
- Silversea Air Programme pricing includes transfers between the airport and pier on days of embarkation/disembarkation.
- 24-hour air emergency help line for use during airline disruptions, weather delays.

Champagne and caviar are not offered onboard *Silver Galapagos*.

Under normal conditions the cruise fare is guaranteed at the time of booking. However, the fare that you pay is determined far in advance of initial departure on the basis of then-existing projections of fuel and other costs. In the event of any significant change in such costs beyond our control, including but not limited to increases in the price of fuel, currency fluctuations affecting our costs, increases in government taxes or levies, or increased security costs, Silversea reserves the right to surcharge guests to cover such unexpected costs. Silversea has the right to refuse to transport guests unless the additional surcharge is paid in advance of initial departure. All cruise-only Silversea holidays, though not covered by the ATOL scheme, are protected by the Cruise Lines International Association's

consumer protection scheme. It is guests' responsibility to arrange flights and/or other travel arrangements to ensure arrival in good time for embarkation and to make suitable travel arrangements for return journey. Silversea strongly recommends guests ensure that any independent travel arrangements are adequately protected by an ATOL, other similar license or insurance.

SILVERSEA AIR PROGRAMME

The Silversea Air Programme is offered from select UK gateways. Silversea's ability to offer air service from specific gateway cities is limited to airline scheduling and the availability of negotiated airfares. Airfares negotiated by Silversea limit your ability to exchange, endorse or make changes to air tickets. Silversea reserves the right to select the air carrier, routing and layover city if necessary and reserves the right to substitute charter flights for scheduled service and scheduled service for charter flights. Airfares may be revised upwards or downwards at any time prior to flight confirmation, are limited to certain classes of service as specified by each airline partner contract, are subject to availability and may not apply during holiday periods. Business and First Class upgrades are guaranteed on the international / transoceanic flights only and subject to availability of select carriers. In providing air arrangements, Silversea acts only as an agent on the guest's behalf and does not operate, control or supervise any airline and will not be held responsible for carriers failing to meet schedules whether or not air schedules / tickets were issued by Silversea. Silversea reserves the right to change inclusive items as needed including private versus group transfer, and any other item that may be designated as part of the Silversea Air Programme package. Final payment is due prior to ticket issuance and release of documents. Silversea reserves the right to modify the Silversea Air Programme procedures and fees at any time without notice. All travel documents are the guest's responsibility. In the event guests are denied boarding by air carriers for failure to have proper travel documents neither air carriers nor Silversea will have any liability and no refunds of any kind will be made by air carriers or Silversea to guests. Guests are strongly advised to purchase travel insurance.

Note for 2016 World Cruise* guests: For a limited time, guests purchasing the 115-Day Full World Cruise and adding the optional Silversea Air Programme to their booking will receive Business Class Air ("Promotional Air Package"). Due to limited air availability, Business Class Air may not be available at time of booking in which case Economy Class will be substituted. All Air Packages are: (1) valid for full fare cruise guests booking/purchasing the applicable Air Package for roundtrip travel via Silversea's Preferred Airline Partners, (2) capacity controlled and subject to availability, (3) limited to specific UK gateways and airlines, (4) applicable to first and second full-fare guests per suite only. Silversea may choose to withdraw or modify Air Package offers at any time without advance notice. Silversea reserves the right to select the air carrier, routing and departure airport from each gateway city. Silversea reserves the right to request full payment of the Airfare at any time. Once airline tickets are issued, or within 90-days of scheduled departure, penalties apply for cancellation. Changes made to travel dates or flight itinerary will be subject to fees (refer to Deviation and Administrative Fees at Silversea.com). Airline baggage fees are not

included. All other Terms and Conditions of the Silversea Air Programme apply. Refer to Silversea.com for complete details.

Silversea's standard air package is referred to as the Air / Sea Package and includes roundtrip Economy Class air and transfers between airport / pier on days of embark / debark. Guests opting to add a Silver Shore Simply Hotel will receive a transfer between the Simply Hotel and pier in lieu of the airport-to-pier transfer already included in the Air / Sea Package. Transfer between airport and Simply Hotel is not included, but available for purchase through Silversea's Reservations Department. Note: Due to limited air availability and / or airline schedule changes, guests may be required to purchase a pre- and / or post-cruise hotel stay (or dayroom) plus applicable transfers in conjunction with their confirmed air schedule. Silversea is available to assist with these arrangements. Additional costs are the sole responsibility of the guest. Guests opting to independently purchase hotel arrangements forfeit the applicable transfer(s) included in the Air / Sea Package and will be required to confirm their own transfer arrangements. Silversea is unable to provide air flights to unaccompanied minors, defined as children under the age of 18.

When Silversea has determined that a dayroom or overnight may be required due to possible conflicts between flight arrival / departure and scheduled embark / debark, Silversea's Air Package Plus will apply and, for an additional charge, a Silver Shore Simply Hotel will automatically be added to the booking as an optional component. Silversea's Air Package Plus includes roundtrip Economy Class Air and applicable transfers between airport / hotel and hotel / pier. Guests opting to cancel the Simply Hotel reservation must email their request to Silversea Concierge at silverskyuk@silversea.com. Guests deviating from the pre-determined travel dates and/or original air schedule or cancelling their Simply Hotel reservation may incur an administrative fee as well as deviation charges and hotel penalties, if applicable. Guests opting to independently purchase hotel arrangements forfeit the applicable transfer(s) included in the Air Package Plus and will be required to confirm their own transfer arrangements.

Note: Guests are at all times responsible for additional costs incurred when purchasing additional hotel nights, early check-in, late check-out, room upgrades, meals, additional ground transportation, etc. The Air / Sea Package or the Air Package Plus shall be collectively referred to herein as the "Air / Sea Package(s)".

On select voyages, Silversea offers Specially Priced Promotional Airfares (the "Promotional Fare(s)"). Promotional Fares are capacity controlled, subject to availability, limited to specific gateways and airlines, and available only for a limited time. Business Class Air Upgrades apply only to the international transoceanic flight(s). Economy class will be substituted when necessary. Silversea may choose to withdraw or modify Promotional Fares at any time without advance notice. Silversea reserves the right to request full payment of the Air / Sea Package fare at any time prior to cruise departure. Once airline tickets are issued, or within 120 days of scheduled departure, penalties apply for cancellation. Requested changes to confirmed air schedules at any time prior to departure will incur fees and charges as the airline supplier may impose and any additional air costs associated with the confirmed changes to travel dates, flight schedules and / or airlines ("Deviation Charges") will be the responsibility of the guests and relevant fees will be

applied to the guest's booking. In addition, for each confirmed change, guests will be charged a non-refundable administrative fee of £50 per person. Deviation Charges are at all times in addition to administrative fees. Guests are required to send their detailed deviation request in writing to Silversea Concierge at silverskyuk@silversea.com. Responses are generated within approximately 72 business hours. Administrative Fees and Deviation Charges are non-commissionable.

Silversea requires the full passport details including but not limited to: passport number, expiration date, gender, date of birth, nationality, residential address, destination address and guest's name as it appears on their passport at the time of booking. Name changes are not allowed after initial confirmation without forfeiting the air schedule, the airline tickets if issued, and any seats if pre-assigned. Payment of additional costs incurred for changing a name on an airline reservation / ticket will be the sole responsibility of the guest, regardless of Air / Sea Package booked. This information is required at the time of booking the Air / Sea Package. Failure to provide this information as required may result in complete cancellation of air schedules. Silversea cannot guarantee the re-booking of the original air schedule if cancelled, and additional airline fees / penalties may be assessed. Airline tickets and cruise documents will not be released until required information and additional payment is provided in full to Silversea.

As a courtesy, Silversea Concierge will send a generic request to the airline(s) for pre-assigned seats. This is strictly a courtesy and Silversea is not responsible for changes or cancellation of pre-assigned seats prior to flight departure, for any reason. Guests are advised to contact the airline(s) directly to confirm and / or change pre-assigned seating. Other requests such as adding frequent flyer numbers and requesting special meals or wheelchair assistance must be requested directly with the airline(s). Guests are, at all times, responsible for paying all service fees imposed by the airline(s). Airline service charges are, at all times, non-refundable. Some airlines restrict the accumulation and / or use of frequent flyer miles in conjunction with fares used by Silversea. Please note that each guest is fully responsible for any / all baggage fees that may be imposed by the airline(s) upon check-in. Guests are, at all times, responsible for airline baggage fees. For travel to / from and within the United States, please visit <https://bags.amadeus.com/> or the individual air carriers' website for a complete listing of baggage fees. Guests are required to review their Silversea invoice in detail to ensure accuracy of all items including guest names, confirmed class of service and fare, and any other information that may affect guest's airline reservation. Discrepancies must be brought to Silversea's attention immediately and prior to ticket issuance. Discrepancies brought to Silversea's attention after ticket issuance will result in full forfeiture of the original airfare paid and guest(s) will be required to pay applicable penalties prior to Silversea issuing replacement ticket(s). Silversea issues airline tickets within 90 days of sailing and only after final payment has been received. Due to the fact that airlines change their schedules often, guests are urged to review their flight details upon receiving their electronic ticket receipt, and should also contact the airline(s) directly at least 72 hours in advance to reconfirm flight schedules and baggage allowance/fees.

All the flights and flight-inclusive holidays are financially protected by the ATOL scheme. Upon

payment, you will be supplied with an ATOL Certificate (only applicable to UK departures excluding the Channel Islands; the Isle of Man & Republic of Ireland). Please check to ensure that everything that you booked (flights, hotels and other services) is listed on it. Also see our booking conditions for further information. For information about financial protection and the ATOL certificate, go to www.atol.org.uk/atolcertificate.

On select voyages, Economy & Specially Priced Promotional Airfares may be available to guests opting to book the Silversea Air Programme. All travel documents (air and cruise tickets, passport, medical card, inoculation verification) are the guest's responsibility. It is also the guest's responsibility to obtain any necessary visas and public health documents for all applicable ports and to comply with all customs requirements. Without the required documents, a guest may be denied boarding and accommodation by Silversea, or the guest may be disembarked during the voyage and Silversea will not make a refund or be otherwise liable to any guest for such denial of boarding or disembarkation. In the event that Silversea, as a courtesy, provides information or advice as to necessary travel documents, visas and medical inoculations, guests are still obligated to verify such information with the appropriate government authorities and Silversea does not warrant or guarantee the accuracy of such information. Some countries require passports to be valid six months following your return date. Please check with the appropriate consulate for specific requirements.

Security measures imposed by governments may change from time to time and each guest will be required to comply with them. Please consult your travel agent for advice on such requirements to avoid loss of boarding privileges.

ONBOARD SPENDING CREDIT

Any onboard spending credit issued to a guest is provided in the form of a shipboard credit, in US dollars, based on double occupancy suite, not per voyage and may only be applied once on combined voyages; can be used for onboard ex-

2. RESERVATION AND FORMATION OF THE HOLIDAY CONTRACT

2.1 Reservation of a Holiday may be made through a Third Party or with Silversea. Whether booking alone or in a group, the Guest shall be deemed the single point of contact for that booking and the one with whom Silversea will deal (whether directly or through the Guest's travel agent) in all subsequent correspondence and notices. The Guest must be at least eighteen (18) years' old at the time of booking and have the mental capacity and necessary authority to make the booking. The Guest must ensure that he or she and all other guests named on the booking strictly adhere to these terms and conditions of this Holiday Contract. The reservation must contain all relevant personal data of all guests within the booking and be made accessible to both the Third Party and Silversea. The Guest must provide the full and correct names and personal details of all guests which accord with passport details at the time of reservation. Names of guests cannot be changed after reservation unless a written request is made to Silversea in accordance with clause 2.3 below.

Where a reservation is made through a Third Party, the Third Party (for the purposes of the Holiday Contract) is the agent or representative for the Guest (and not for Silversea). Accordingly, all communications with the Guest in relation to the Holiday Contract including all declarations, notices, reminders, announcements, documents and tickets may be sent by Silversea to the Third Party, and will be deemed to have been received by the Guest if received by the Third Party. A deposit of twenty five per cent (25%) of the Holiday Price must be paid at the time of reservation.

2.2 SCL and any party who arranges or supplies part of the Holiday, and their respective employees, agents and subcontractors, as well as all employees, agents and subcontractors of Silversea shall have the benefit of all rights, limitations and exemptions available to Silversea.

2.3 Silversea will accept a request for changes of name or other details of a reservation provided always that Silversea will be entitled to charge fees in relation to any change made to a reservation as a result of a request made under this clause in ac-

cordance with the provisions applicable to Guest cancellation as set out in clause 5 below.

2.4 Despite best intentions and a desire to welcome and accommodate all persons on board its ships, the nature of the cruise which forms part of the Holiday and the technical specifications of the Ship mean that Silversea is unable to accept a booking for or allow embarkation of any person on board the Ship, who, at the time the Holiday commences:

(a) has entered their 24th week of pregnancy; or
(b) is less than six (6) months' old if sailing on board *Silver Cloud*, *Silver Wind*, *Silver Shadow*, *Silver Whisper* or *Silver Spirit*; or

(c) is less than one (1) year old if sailing on board *Silver Explorer* or *Silver Discoverer*; or

No children under the age of six (6) years will be allowed on board zodiacs. Children under the age of six (6) years will be unable to participate in any Excursions which require the use of zodiac transfer to go ashore.

It is a condition of the booking that (i) any person under the age of eighteen (18) years of age ("minor") must be accompanied in the same or connecting suite by a parent or other responsible adult over the age of twenty-one (21) years; and that (ii) if the adult accompanying this minor is not a parent or its legal guardian, a "Parental Consent Guardianship Form" must be signed by parent or legal guardian and received by Silversea prior to sailing. In addition, minors are not permitted in the Ship's casino should it have one.

2.5 It is a condition of the booking that the Guest and all other guests in his or her party, including minors, are adequately insured on holiday and the Guest is strongly recommended to purchase adequate insurance before completing this booking.

2.6 Silversea and/or SCL may at any time assign, transfer or deal in any other manner with any or all of their respective rights and obligations under these Terms and Conditions.

3. HOLIDAY PRICE AND TICKETS

3.1 On receipt and acceptance by Silversea of a deposit of twenty five per cent (25%) (or such other proportion as may be agreed by Silversea) of the total Holiday Price per guest, Silversea will, subject to availability, issue confirmation of the formation of the Holiday Contract and issue an invoice for the balance of the Holiday Price. It is the responsibility of the Guest to ensure that all confirmation details are correct and to advise Silversea of any amendments at the earliest possible opportunity. Suites are subject to cancellation and resale if the required deposit amount is not received within the specified option period.

3.2 The balance of the Holiday Price and, if applicable, any Additional Service Fee must be received and accepted by Silversea not later than one hundred and twenty (120) days before departure, or immediately upon receipt of invoice if received less than one hundred and twenty (120) days before departure, failing which Silversea reserves the right to cancel the Holiday Contract and to resell the Holiday. In such instance, the Guest will forfeit their deposit.

3.3 Notwithstanding the formation of a Holiday Contract, in no event will Silversea or SCL be obliged to supply the Holiday or any part of it until Silversea has received payment of the full Holiday Price in cleared funds in accordance with the

terms of the Holiday Contract. For the purposes of the Holiday Contract, Silversea acts as agent for SCL for the cruise element of the Holiday and as principal for all other arrangements which form part of the Holiday.

3.4 Holiday Prices quoted include all government taxes which do not have to be paid locally. Taxes which have to be paid by the guests locally are extra and for the guests' account.

3.5 In these Terms and Conditions, a payment will only be considered to have been accepted and received by Silversea before a certain date if it has actually been accepted and received by Silversea (rather than a Third Party) before that date.

Any and all payments for any Holiday must be received and accepted by Silversea on or before the due date. If payment is not received and accepted by Silversea in time, then Silversea reserves the right to refuse to accept the payment and any associated proposed reservation and to cancel any associated Holiday Contract that has been made. This means that if a Holiday is offered at a particular price on the condition that payment is received and accepted by Silversea before a certain date and that condition has not been met, then Silversea may:

a) refuse to accept the proposed reservation; or
b) cancel any reservation it had previously accepted.

3.6 Subject to clause 2.3 above, all tickets issued in respect of the Holiday are non-transferable. Silversea shall not be liable to make any refund for any lost or unused or partly unused ticket.

4. EXCURSIONS, LECTURERS AND PERSONALITIES

4.1 Any and all Excursions included within the Holiday may be subject to minimum or maximum numbers of participants. Excursions are subject to availability. Silversea has no liability for any land based arrangements which do not form part of the Holiday booked with Silversea. Excursions, lecturers and personalities may vary from those advertised in advance.

4.2 Subject to clause 12, Silversea shall not be liable for any loss or damage, including but not limited to, loss of enjoyment, disappointment or distress for changes to, or cancellation of any Excursions, lecturers and personalities.

4.3 Without prejudice to the generality of the foregoing, in consideration of payment of the Holiday Price, the guests, unless otherwise provided herein, will have the option to utilise equipment provided by Silversea and to participate in various sports and recreational activities and expedition excursions off, under, around, about and in the environs of the Ship and locations visited during the Holiday. These activities may include but are not limited to zodiac transfers, kayaking, snorkelling, hiking and extensive walking ("**Off-Ship Activities**"). All guests acknowledge that: (a) there are risks and dangers involved in the participation in Off-Ship Activities and that these are potentially dangerous activities that can result in serious injury or death; (b) Silversea can in no way guarantee the safety or welfare of the guests in any Off-Ship Activities and that Silversea is merely providing equipment and instruction to enhance the guests' enjoyment; (c) The guests shall knowingly and voluntarily assume the risk of and shall indemnify Silversea against any claims made by him or on his behalf as a result of using equipment provided by Silversea and participating in Off-Ship Activities; (d) The guests shall acquire

the training and skill necessary to participate in Off-Ship Activities and shall follow the rules, guidance, directions and procedures of Silversea; and (e) Silversea shall accept no responsibility for the guest's failure to abide by governmental rules, regulations and restrictions and Silversea's rules, guidance, directions and procedures concerning Off-Ship Activities.

The guests will be required to sign an Indemnity and Release before being allowed to participate in any Off-Ship Activities. Any guests unwilling to sign an Indemnity and Release will be unable to participate in any Off-Ship Activities. On those voyages where scuba diving is offered, Guests wishing to participate will be required to have a current Advance Open Water Dive certification (a copy of which must be provided to Carrier) as well as medical and dive insurance covering evacuation, medical treatment and repatriation (copies of which must be provided to Carrier). Guests who are unable to meet these requirements will be unable to participate in any scheduled dives. Silversea reserves the right to limit the number of Guests per dive.

5. CANCELLATION BY THE GUEST

5.1 If guests find it necessary to cancel their Holiday or any component thereof, they or the Third Party through whom they booked the Holiday are required to contact the Silversea Reservations Department by telephone as well as to submit the Guest's cancellation in writing.

5.2 Cruise cancellation requests received will be subject to the following charges, regardless of resale:

6. ALTERATION BY SILVERSEA

6.1 Arrangements for the Holiday are planned many months in advance and very occasionally alterations may become necessary.

ALTERATIONS BEFORE DEPARTURE

6.2 Where it is necessary to alter significantly an essential part of the Holiday before departure, Silversea will notify the Guest or the Third Party as quickly as possible. The Guest may:

a) accept the change and its impact (if any) on the Holiday Price; or

b) book another Holiday with Silversea from its current brochure, subject to availability and payment or refund in respect of any difference in the Holiday Price; or

c) cancel and receive a full refund of the Holiday Price.

The Guest must inform Silversea in writing of such a choice within seven (7) days of the notification by Silversea under this clause 6.2 and if the notice is given less than seven (7) days before the date of departure, as soon as possible after receipt but in any event prior to departure.

ALTERATION AFTER DEPARTURE

6.3 Where after departure a significant proportion of the Holiday is not provided or Silversea becomes aware that it will be unable to provide/procure a significant proportion of the Holiday, then Silversea will, at no extra cost to the guests, either:

a) make suitable alternative arrangements for the continuation of the Holiday; or b) provide the guests with equivalent transport to the scheduled destination.

Where appropriate, in either case, Silversea shall pay compensation to the guests of an amount relating to the Holiday Price, pro-rata, for the part of the Holiday lost and not made up for by alternative arrangements except that no compensation shall be payable where the alteration is caused by unusual and unforeseeable circumstances beyond the control of Silversea or an event which Silversea, even with all due care, could not have foreseen or forestalled or a failure which is attributable to either a third party unconnected with the services contracted for which are unforeseeable or unavoidable or by the guests.

If it is impossible to make the arrangements described in clauses 6.3(a) or (b) above, or this is not accepted by the guests for good reason, Silversea will, where appropriate, provide the guests with equivalent transport back to the place of departure or to another place which the Guest has agreed.

6.4 During cruises, Silversea cannot guarantee to call at every site specified in the original itinerary or to maintain every aspect of the advertised itinerary and reserves to itself and to the Master the absolute right to deviate or omit any site or change any times of the itinerary, to transfer the guests and luggage to any other ships or means of transportation, to assist other ships, or to otherwise manage the Ship, without any compensation being payable to the guests provided that such action is reasonable or done in the interests of safety or comfort of guests. Any such deviation or change shall not represent a significant alteration to the Holiday.

6.5 Silversea is entitled to provide an alternative suite on board the Ship of the same or a higher grade than that originally booked.

7. CANCELLATION BY SILVERSEA

7.1 Silversea may cancel the Holiday prior to departure as a result of (i) unforeseeable, unavoidable or unusual circumstances beyond the control of Silversea or (ii) if the number of bookings

received by Silversea is fewer than the minimum number required by Silversea; whereupon the Guest shall be notified in writing and shall be entitled to either:

a) book another Holiday with Silversea from its current brochure, subject to availability, and payment or refund in respect of any difference in Holiday Price; or

b) receive a full refund of the Holiday Price and any Additional Service Fee paid.

The Guest must inform Silversea in writing of such a choice within seven (7) days of notification by Silversea under this clause 7.1, or, if notice is given less than seven days before departure, as soon as possible and in any event before departure failing which the Guest will be deemed to opt for option 7.1b).

7.2 If Silversea cancels a Holiday in circumstances other than those described in clause

7.1 and compensation is due to guests as a result of the cancellation, Silversea will pay the Guest no more than the compensation payments (that apply in the aggregate to the Guest and to the other guests in his party) set out in the table below regardless of suite or suite resale:

more than 61 days prior to the initial sailing: nil

60 – 31 days prior to the sailing date: £50, €100 or US\$100 (according to the currency in which the Holiday was booked);

30 – 15 days prior to the sailing date: £150, €300 or US\$300 (according to the currency in which the Holiday was booked);

14 – 0 days prior to the sailing date: £250, €500 or US\$500 (according to the currency in which the Holiday was booked).

8. HOLIDAY PRICES

8.1 Silversea will not increase Holiday Prices for the Holiday unless an increase in the cost of providing the Holiday of more than 2% is caused by an increase in transportation costs outside the control of Silversea, including the price of Brent* crude oil exceeding US\$80.00 per barrel, or an increase in dues, taxes or fees chargeable for services such as landing taxes, or embarkation or disembarkation fees at ports and airports, or exchange rates, in which case Silversea shall be entitled to pass on any such increase to the guests at cost by way of an increase in Holiday Price. A significant decrease in such costs may be passed on to the guests at the discretion of Silversea. In any event, no increase will be made within thirty (30) days of departure. If an increase exceeds ten per cent (10%) of the Holiday Price, the Guest may cancel the Holiday without penalty and receive a full refund of any amount paid to Silversea within seven (7) days of notification; otherwise the Guest will be deemed to accept the increase.

* Brent crude oil prices published on www.bloomberg.com

8.2 Where air travel or air travel upgrades (other than Additional Services, in respect of which different cancellation provisions apply), hotel bookings, or land programmes are included in the Holiday reservation at a specially negotiated price, if the Holiday is subsequently cancelled by the Guest, no use of or refund in respect of the air travel or hotel reservation can be made. If the cancellation is by the Guest, any charge, payment or expense charged to Silversea in connection with the flight, accommodation or land programme originally booked must be reimbursed by the Guest to Silversea in addition to

the charges payable in accordance with clause 5 (Cancellation by the Guest) above.

8.3 No refund will be made by Silversea in relation to any unused package components.

9. GUEST RESPONSIBILITIES

9.1 All guests must comply and the Guest shall procure that all other guests comply with and abide by the terms and conditions of the Holiday Contract and all other rules and regulations of Silversea and any agent, subcontractor or other supplier of services in connection with the Holiday, as well as all orders and directions of the Master and other officers of the Ship. Copies of all applicable rules and regulations are available from Silversea on request. The officers on board the Ship have the right to use all reasonable means to enforce such rules, regulations, orders and directions including, but not limited to, the removal of guests from the Ship. If it appears that guests are or are becoming for any reason unfit to travel or likely to endanger the health, safety or comfort of anyone on board then the Master or duly authorised representative may refuse to embark or disembark the guests at any port or place, transfer the guests from one suite to another, or otherwise deal with the guests as may be necessary. In such circumstances the guests shall not be entitled to any refund or compensation and shall be liable to pay any fines, losses or compensation due to any party.

9.2 Subject always to clause 15 below, all guests who have purchased a Silversea Air Package (including an Air Charter Package (as such term is defined in clause 15.2)) must be at the designated airport(s) at least two (2) hours before the appointed departure time for each flight.

9.4 Each guest shall be responsible to Silversea, SCL and their respective officers, employees, servants, agents, sub-contractors, shareholders and affiliates (each, an "Indemnitee") for, and shall indemnify Silversea and any other Indemnitee against, all damage to the Ship, breakage of any fixtures on the Ship, and any other losses or expenses which an Indemnitee may incur (including, any penalties, fines, charges, legal fees, losses or expenses incurred or imposed upon Silversea) arising out of the guests' presence on board or any conduct or activity undertaken by, or any omission of, that guest. No guests shall pay, nor receive any general average contribution with respect to any property.

9.5 Each guest agrees to fully indemnify and hold harmless Silversea and any other Indemnitee (as such term is defined in clause 9.4) against any damages, liabilities, losses, penalties, fines, charges or expenses incurred or imposed upon Silversea and any other Indemnitee as a result of any act, omission or violation of law by the guest or any minor for whom the guest is responsible.

9.6 All guests must be twenty one (21) years of age or older to purchase or consume alcohol. Silversea reserves the right to refuse to serve anyone who in its sole judgment may be under the influence of alcohol, or for any reason necessary in its judgment to preserve the health and safety of guests and employees.

9.7 Any and all payments by guests to SCL for services provided on board the Ship shall be made in U.S. Dollars or such other currency as is accept-

able to SCL. All amounts payable to SCL or any such service providers shall be paid before final disembarkation from the Ship. [A transaction fee will be charged for all cash advances (currently 2%).]

9.8 All guests must attend all mustering drills while on board the Ship. This is an exercise that is required by law and is held for guests' safety. A failure by any guests to attend a mustering drill may result in disembarkation of any such guest from the Ship without any recourse to, or liability of Silversea or SCL.

9.9 All guests shall allow Silversea, the Master and the Ship's officers, in their sole discretion, in order to ensure the safety of the passengers, the Ship and crew, the right to search a guest and any guest's suite/stateroom or property in order to investigate any reported incident, whether involving a crime or personal injury or damage to property and they may preserve evidence of any reported incident in order to comply with any requests from law enforcement authorities and to carry out any investigation aboard the Ship.

10. DOCUMENTS

10.1 All guests will be required to complete a "Guest Information Form" prior to boarding. No questions may be left unanswered. No guests may be permitted to board the Ship or embark on the cruise if complete information has not been provided. Silversea shall in no way be liable to any guest denied boarding as a result of an incomplete Guest Information Form or if false information has been provided. Any guests boarding without completing the questionnaire may be asked to disembark without liability to Silversea.

The "Guest Information Form" requests the following information:

- Email addresses
- Home addresses.

10.2 All guests must possess their tickets, a full passport valid for six (6) months beyond the return date of the Holiday and any necessary visas (visas for Excursions are sometimes required for certain countries). All guests are responsible for determining which travel documents, visas, vaccinations and medications are required for the ports of call and sites on the advertised itinerary and for obtaining the same at their own cost and Silversea shall not be liable to provide such information to guests. If Silversea, as a courtesy to guests, provides information or advice as to necessary travel documents, visas and vaccinations, guests must verify such information with the appropriate government authorities and Silversea does not warrant or guarantee the accuracy of such information. Silversea may at certain times deem it appropriate to require the guests to have specific vaccinations. Details will be advised as soon as possible.

10.3 All guests must also comply, without delay, with the requirements of all immigration, port, health, customs and police authorities, and all other laws and regulations of each country or state from or to which the guest will travel. On all ships with the exception of *Silver Galapagos* those guests requiring wheel-on and/or wheel-off access are requested to bring their own collapsible wheelchair. Some ports are anchorage ports and physical conditions may preclude wheelchair guests from going ashore. For *Silver Galapagos* those guests requiring wheel-on and/or wheel-off access must contact Silversea prior to making a booking. Silversea and SCL reserve the right to deny boarding to any guest failing to notify Silversea of such requirement at the time of booking. In order to meet applicable safety requirements established by international, European Union or national law or in order to meet safety requirements established by competent authorities; or where the design of the Ship or port infrastructure and equipment, including port terminals, makes it impossible to carry out the embarkation, disembarkation or carriage of the said person in a safe or operationally feasible manner, Silversea may refuse passage to guests.

11.4 Silversea is unable to accommodate service animals on board *Silver Galapagos* as their entry into Galapagos National Park is prohibited.

11.5 The medical services and medication on board the Ship is extremely limited and all guests

are required to bring an adequate supply of any specific medication needed. All guests will be charged for use of the medical facilities. It is therefore recommended that guests have full travel insurance to cover any medical costs incurred on board. Neither Silversea nor SCL have any liability whatsoever for any treatment, diagnosis, advice, examination or other services provided by any medical personnel or other service providers on board the Ship and at any ports of call. If any guests fail to obtain and to have such documents, that guest may be denied boarding and accommodation by Silversea or the guest may be disembarked during the voyage and Silversea will not provide a refund or otherwise be liable to any guests for such denial of boarding or disembarkation.

11.6 For *Silver Galapagos* voyages: Local authorities manage the quarantine system of Galapagos National Park in order to avoid the arrival or importation of foreign species to the islands. All cargo and luggage that arrives at Galapagos National Park must be inspected. To preserve human health and the native species of the Galapagos Islands, the following products may not be transferred to or imported into the Galapagos: fresh vegetables and fruits, animal products and or its derivate or dairy products. It is strictly prohibited to transfer to or import into the Galapagos any live animals, pathological samples, dry coffee beans, genetically modified organisms, forest species or the disseminative parts, grass and its disseminative parts, fresh flowers medicinal plants and their disseminative parts, banana tree leaves, micro-organisms (fungus, bacteria, etc.) and any earth, sand or animal vaccines.

12. LIABILITY

12.1 Subject to the provisions of the Conventions and Regulations referred to in clauses

12.4 to 12.9, Silversea and SCL each accept responsibility for death, injury or illness caused by the negligent acts and or omissions of it and anyone who supplies services which form part of the Holiday. Silversea and SCL limit their liability, where applicable, by the Conventions and Regulations mentioned in 12.4 to 12.9 inclusive. In any event, Silversea is not responsible for any improper or non-performance which is:

- a) wholly attributable to the fault of the guests;
- b) attributable to the unforeseeable or unavoidable act or omission of a third party unconnected with the provision of any services to be provided under the Holiday Contract;
- c) attributable to an unusual or unforeseeable circumstance beyond the control of Silversea and/or anyone who supplies services which form part of the Holiday the consequences of which could not have been avoided even if all due care had been exercised, including (but not limited to) an event of force majeure; or
- d) attributable to an event which Silversea and/or anyone who supplies services which form part of the Holiday could not even with all due care have foreseen or forestalled.

12.2 For claims not involving personal injury, death or illness or which are not subject to the Conventions and Regulations referred to in 12.4 to 12.9 inclusive, Silversea and SCL's liability for improper performance of the Holiday Contract shall be limited to a maximum of twice the Holiday Price which the affected guest paid (not including premiums and amendment charges).

12.3 All carriage (by land, air and sea) is subject to the terms and conditions of carriage of the actual

carrier. These conditions of carriage may limit or exclude liability, are expressly incorporated into the Holiday Contract and also form the terms and conditions of separate contracts between the guests and the particular carrier as contained in that carrier's ticket which is provided to the guest before the scheduled departure date. Copies of these terms and conditions are available on request from Silversea.

12.4 Carriage of passengers and their luggage by air is governed by various international conventions (the "**International Air Conventions**"), including the Warsaw Convention 1929 (as amended by the Hague Protocol 1955 or the Montreal Protocol 1999 or otherwise) or the Montreal Convention 1999. Flights between the UK and any member state of the European Union are currently governed by EC Regulation 889/2002 which gives legal effect to the Montreal Convention 1999. To the extent that Silversea and/or SCL may be liable as a non-performing air carrier to guests in respect of carriage by air, the terms of the International Air Conventions (including any subsequent amendments and any new convention which may be applicable to a Holiday Contract for a cruise between Silversea and/or SCL and a guest) are expressly incorporated into these Terms and Conditions. The International Air Conventions may permit the carrier to limit its liability for death and personal injury, loss of and damage to luggage and delay. Insofar as Silversea may have any liability to the guests in respect of carriage by air, it shall be determined accordingly. Copies of these conventions are available from Silversea on request.

12.5 To the extent that Regulation A (as defined in 12.6) does not apply, carriage of passengers and their luggage by sea and the liability of carriers in the event of accidents is governed by the Athens Convention 1974 as subsequently amended or modified (the "**Athens Convention**"). So far as applicable, the Athens Convention is expressly incorporated into these Terms and Conditions and any liability of Silversea and/or SCL for death or personal injury or for loss of or damage to luggage arising out of carriage by sea shall be determined accordingly. In most cases, the Athens Convention limits the carrier's liability for death or personal injury or loss of or damage to luggage and makes special provision for valuables. The Athens Convention presumes that luggage has been delivered undamaged to the guests unless written notice is given to Silversea and/or SCL (as carrier):

- a) in the case of apparent damage, before or at the time of disembarkation or redelivery; or
- b) in the case of damage which is not apparent or of loss, within 15 days from the date of disembarkation or redelivery or from the time when such redelivery should have taken place.

Any damages payable by Silversea and/or SCL up to the Athens Convention limits shall be reduced in proportion to any contributory negligence by the guest and by the maximum deductible specified in Article 8 (4) of the Athens Convention. Copies of the Athens Convention are available from Silversea on request.

12.6 Carriage of passengers and their luggage by sea and the liability of carriers in the event of accidents is governed by EC Regulation No. 392/2009 of the European Parliament and of the Council of 23 April 2009 on the liability of carriers of passengers by sea in the event of accidents as subsequently amended or modified ("**Regulation A**"). Passengers' rights when travelling by sea and inland waterway are governed by EU

Regulation No. 1177/2010 of the Parliament and of the Council of 24 November 2010 concerning the rights of passengers when travelling by sea and inland waterway and amending Regulation (EC) No. 2006/2004 as subsequently amended or modified ("**Regulation B**"). (Regulation A and Regulation B shall, where the context permits, be referred to as the "**Regulations**".) The Regulations are expressly incorporated into these Terms and Conditions and any liability of Silversea and/or SCL for death or personal injury, or concerning the rights of passengers in relation to non-discrimination, cancellation or delay shall be determined accordingly. The global limitation of liability available under Article 5 of Regulation A and the Exceptions and special conditions, and Exemptions available under Articles 8 and 20, respectively, of Regulation B, shall apply in respect of any damages payable by Silversea and/or SCL or to reduce or exclude Silversea's and/or SCL's liability as appropriate. Copies of the Regulations are available from Silversea upon request.

12.7 Insofar as Silversea and/or SCL may be liable to guests in respect of claims arising out of carriage by air or carriage by sea, Silversea and/or SCL shall be entitled to all the rights, defences, immunities and limitations available, respectively, to the actual air carrier (including his own terms and conditions of carriage) and under the Athens Convention, and nothing in these Terms and Conditions shall be deemed a surrender thereof. To the extent that any provision in these Terms and Conditions is made null and void by the Warsaw Convention, the Montreal Convention or the Athens Convention or any legislation compulsorily applicable or is otherwise unenforceable, it shall be void to that extent but no further.

12.8 Insofar as the Holiday or any part of it may be performed on a ship not owned by Silversea and/or SCL, it is agreed that Silversea and SCL, as the case may be, shall at all times nevertheless be deemed a ship owner for the purposes of the Convention on Limitation of Liability for Maritime Claims 1976, whether as amended by the Protocol of 1996 or otherwise and as in force in any relevant jurisdiction from time to time, and so entitled to limit liability.

12.9 Except for claims arising out of carriage by air (as provided by 12.4), any liability in respect of death and personal injury and loss of and damage to luggage which Silversea and/or SCL may incur to guests, whether under the Holiday Contract in accordance with these Terms and Conditions or otherwise, shall always be subject to the limits of liability contained in either the Athens Convention or Regulation A.

12.10 Notwithstanding anything to the contrary elsewhere in these Terms and Conditions, neither Silversea nor SCL shall in any circumstances be liable for any loss or anticipated loss of profits, loss of revenue, loss of use, loss of contract or other opportunity nor for any other consequential or indirect loss or damage of a similar nature.

13. DATA PROTECTION

13.1 To enable Silversea and/or SCL to fulfil their obligations under the Holiday Contract, Silversea and/or SCL each require personal information relating to each guest including but without limitation to the guest's name, address, gender, citizenship, dietary requirements which may disclose the guests' religious beliefs, any health, or medical condition, any disability, or any other special needs, to process the guests' reservation effectively. Silversea and/or SCL may pass this information on to other relevant persons such as travel agents, hotels, airlines or other trans-

port providers, security and/or credit verification companies, credit and debit card companies or any governmental or public authorities, either as required by law or regulation or, if required by such other bodies. Without such information it may not be possible for Silversea and/or SCL to fulfil their respective obligations under the Holiday Contract. Except as provided below, each guest expressly consents to such transfers of information, including to other countries outside the European Economic Area. Should any guests object to such transfer, they must notify Silversea in writing as soon as possible and in any event no later than twenty one (21) days prior to the scheduled sailing date.

13.2 Silversea and/or SCL may also circulate a passenger list to all guests during every voyage, which will include the names and nationality of each guest. Any guest who objects to their name appearing on this list should notify Silversea in writing.

13.3 Silversea has the right to use photographic or video images of guests taken on board the Ship during the Holiday for marketing or other purposes, unless guests specifically requests that his or her image not be used for such purposes.

14. COMPLAINTS AND CLAIMS

14.1 All guests must raise any Holiday complaints, including, without limitation, any failure to provide a service forming part of the Holiday or any Additional Service or any property damage or loss or injury, illness or death of a guest, immediately with Silversea and confirm this in writing at the earliest possible opportunity. If any complaint arises during the Holiday which might give rise to a claim it must be notified immediately to the Ship or hotel management or airline staff and written notice must be given to Silversea as soon as possible and in any event within two (2) months (or, if a shorter period is prescribed under the applicable international convention then within that period) from the date on which the service was performed or when it should have been performed or when the property damage or loss or injury, illness or death occurred. Within one (1) month of receipt of the complaint, Silversea or SCL will give notice to the Guest that his complaint has been substantiated, rejected or is still being considered. Silversea will provide the final reply to the complaint within two (2) months of receipt of the complaint.

14.2 In any event, unless a longer period is provided for by force of law, proceedings in respect of any claim must be brought within two (2) years of the end of the Holiday, failing which neither Silversea nor SCL nor any other party involved in the supply of services in connection with the Holiday Contract shall be under any liability to the guests.

14.3 Silversea and SCL are members of a travel industry association. Some limited disputes may, subject to agreement between the guests and Silversea or SCL, as the case may be, be referred to arbitration or conciliation under a scheme arranged by said association. The scheme does not apply to claims arising out of injury or illness, and an application for arbitration (if agreed) should normally be made within nine (9) months of the end of the Holiday. Nothing in this clause 14.3 shall oblige the parties to the Holiday Contract to refer any dispute to arbitration or conciliation as mentioned above.

14.4 Each Holiday Contract and any dispute or claim arising out of or in connection with it, its subject matter or formation (including non-contractual disputes) shall be governed and con-

strued in accordance with English law and any such disputes or claims arising hereunder which cannot be resolved directly between the parties shall be referred to the exclusive jurisdiction of the High Court of Justice in London.

14.5 The address for service of proceedings hereunder is: Silversea Cruises (UK) Ltd Level 3, The Asticus Building 21 Palmer Street, London SW1H 0AD United Kingdom.

Notwithstanding that Silversea may facilitate the guests' participation in the Silversea Air Programme, the Silversea Air Programme does not form part of the Holiday Contract and is subject to the terms of a separate and severable contract between the (i) each guest and (ii) Silversea and/or the relevant air carrier, which terms shall be supplied separately on or before the time of booking.

Flight origination & flight times are subject to change without notice. Not included in the Air Charter Packages are port charges; government fees and taxes; transportation pre and/or post-cruise to and/or from the applicable originating airport, unless otherwise specified. 15.3 The Silversea Air Programme is optional and includes roundtrip economy air transportation from select gateways and transfers between the airport and pier on day of embarkation/disembarkation, unless otherwise indicated. The Silversea Air Programme add-on may be requested in Economy Plus, Business class or First class, and may only be confirmed subject to availability and upon additional payment by Passenger of the applicable airfare for the class of service purchased. For those guests purchasing the Silversea Air Programme and embarking and/or disembarking

a Holiday in Ushuaia, Argentina, Longyearbyen, Norway, or Churchill, Canada the relevant Air Charter Package is included in the Silversea Air Programme fare. In the event a guest cancels the Silversea Air Programme and not their cruise reservation, guest will be required to purchase the Charter as referenced above.

15.4 The Silversea Air Programme is subject to availability at the time of booking. In the event airlines raise their rates and/or impose surcharges, Silversea reserves the right to increase the Silversea Air Programme package rates to pass along these increases to the guest, in accordance with clauses 15.5 and 15.6 below and the provisions of the Additional Services contract.
