ALASKA & RUSSIAN FAR EAST EXPEDITION VOYAGES

Follow in the Footsteps of the Early Traders and Explorers

2016 & 2017 VOYAGES

Brown Bear meets guests

RUSSIA'S RING OF FIRE & WILD ALASKA

Discover the Russian Far East, a geothermal hot spot and one of the most biologically rich parts of the planet. Explore the Kuril Islands with their stunning volcanic landscapes and vast populations of seabirds. Search for brown bears on the Kamchatka Peninsula, where over 160 volcanoes stud the landscape. Or continue across the Bering Sea to remote Alaska with its astonishing wildlife. Every landing holds promise of something awesome, amazing ... join us.

Far, far east off the coast of Siberia, the Sea of Okhotsk is one of the least visited regions in the Russian Far East. Along its southern flank, the Kuril Islands stretch over 700 miles, a wonderland of volcanoes and hot springs, and a haven for enormous populations of migratory seabirds. Northern fur seals and Steller sea lions haul out on rocky outcrops, while the huge Steller's sea eagle soars overhead. Along the eastern shore, the Kamchatka Peninsula percolates with geothermal activity, a vast wilderness with half the world's population of Steller's sea eagles, the largest population of brown bears on Earth, and rivers and streams churning with salmon.

From Kamchatka, you can follow in the wake of Vitus Bering across the eponymous Bering Sea to some of the most inaccessible places in North America, smouldering landscapes of restless volcanoes, glacier-carved fjords and tundra teeming with wildlife. The Aleutian Islands were stepping stones for Russian trappers and traders, and site of the Japanese invasion during WWII. Today they form part of the Alaska Maritime National Wildlife Refuge, renowned for its dramatic, sea-sculpted coastlines, abundant marine animals, millions of migratory and nesting seabirds — and unmatched opportunities for adventure. Join us as we sail to these remote regions of the Pacific Rim on an expedition that beckons nature lovers, history buffs, and the intrepid explorer within.

Expedition Team

We've taken great care to assemble a top-notch team of experts. For we know full well that those who yearn to explore the farthest reaches of our planet are driven by a quest for knowledge and discovery. In daily briefings, discussions and recaps, you'll learn your destination from naturalists, historians, and other professionals hand-picked for their expertise in the regions you visit. You can cruise by Zodiac® into the caldera

of Yankitcka Island as a geologist explains the causes of volcanoes, for example. Or join an ornithologist on deck and learn to identify some of the 150 seabird species in the Kuril Islands. The marine biologist can usually be found here too, searching the seas for signs of marine life. Numerous species of whales, porpoises and seals proliferate in these fertile waters.

Onboard Lifestyle

Built for expedition cruising, *Silver Discoverer's* can navigate safely through these icy regions. Her intimate size and shallow draft allow for maximum manoeuvrability through narrow fjords and inlets. Notable Silversea distinctions such as all-suite accommodations with butler service, open bars, complimentary WiFi, and truly world-class cuisine are luxuries rarely seen in expedition cruising. With a crew-to-guest ratio of nearly one to one, service is equally outstanding. And with only 120 guests, there's considerable opportunity to meet and mingle with your guides and fellow travellers. After all, one of the great joys of an expedition is the company you meet — and keep.

The Royal Geographical Society: An Exclusive Partnership

Thanks to this distinguished alliance, guests can enjoy historical information collated from centuries of scientific exploration by the Royal Geographical Society. Founded in 1830, the Society, whose patron is The Queen of England, has supported some of the world's most notable explorers and expeditions like those of Darwin, Livingstone, Hillary, Shackleton and Wallace. Its archives contain over two million items that record the history of geography and exploration for the past 500 years — an invaluable resource for scientific research. And now for the guests of Silversea.

ALASKA & THE RUSSIAN FAR EAST

WATCH NOW LEARN MORE WATCH NOW LEARN MORE

Long closed to foreigners with impassable ice floes much of the year, the Sea of Okhotsk and remote Kamchatka have fired the imagination of explorers for centuries. Join us as we sail in Bering's wake across the Pacific Ring of Fire. Explore wilderness regions dense with wildlife and breathtaking in their volcanic beauty.

Kamchatka, Russia

SUGGESTED EXPEDITION HIGHLIGHTS:

- Marvel at spectacular natural landscapes, pristine tundra and massive volcanoes
- Travel along the historic routes of explorers and traders
- Be on the lookout for rare wildlife including the western grey whale and Steller sea lion
- Photograph a variety of wildlife including walrus, fur seal, otter, red fox and the enormous Kamchatka brown bear
- Cruise and explore by Zodiac®, watching for walrus haul-outs and sea otters at play in the surrounding waters

In 1732, Peter the Great commissioned Vitus Bering to determine whether a land bridge existed to the New World. It was the largest expedition the world had ever seen, and so too, our own great northern expeditions can only be described in superlatives. For this is not only the most seismically active region of the Pacific Rim, with geysers and volcanoes and fantastic fumarole fields, but the Bering Sea is also home to one of the world's largest marine and bird populations. A fantasyland for photographers and nature lovers, alike.

A TASTE OF YOUR ITINERARY

Enmelen Village, Chukotka, Russia

The Yupik and Chukchi people in this small settlement support themselves by reindeer herding and hunting of sea mammals. Villagers in handmade native costumes treat us to a song and dance performance and a tasting of local delicacies.

Semidi Islands, Alaska

There are 2.5 million birds here, almost half the breeding seabirds of the Alaska Peninsula in this nearly uninhabited archipelago, including horned puffins, northern fulmars and skuas, and over a million murre.

Utkholok Peninsula and Kvachina River, Kamchatka, Russia

The 1,000-mile long Kamchatka Peninsula contains a vast network of rivers that produce up to one-fourth of all wild Pacific salmon. The Peninsula also hosts the world's largest density of brown bears, and we'll look for these huge creatures fishing for salmon along the Utkholok and Kvachina watersheds, some of the most productive steelhead rivers on the Peninsula.

Petropavlovsk-Kamchatsky, Russia

The only major city on the Peninsula is also the scientific and cultural centre of the region. On our tour we'll visit the museum of ethnography and natural history, the art school and the gold-domed Russian Orthodox cathedral.

Matua Island, Russia

Matua Island is home to one of the Kuril's most active volcanoes, with more than 14 documented eruptions in the past 250 years. Learn about the Japanese military base that was set up here during WWII and how the Japanese used to capture geothermal heat from the volcano to keep the runway open.

Visit www.silversea.com/expeditions for a full day by day itinerary description.

Puffin in Bear Island

Anastasia Bay, Russia

Katmai National Park, Alaska

MEET THE EXPEDITION TEAM

Nicki Denarie

Expedition Leader

Nicki Denarie developed an early interest in discovery and travel during her childhood in Bavaria. She began her career in the travel industry as an Assistant Expedition Leader on M/V *World Discoverer* and then transitioned to luxury cruising in the role of Shore Excursions Manager before joining Silversea Cruises in 2004. When Nicki is not sailing on Silversea's ships she can be found exploring Asia — both on foot and horseback.

LEARN MORE

Patrick Demus

Marine Biologist

It's with a deep passion for travel that Patrick Demus serves as a researcher, dive instructor, and underwater photographer. In his hometown of Vienna, Patrick also works as a zoological guide, where he specialises in biology and the animal kingdom. As a guest lecturer, he skillfully presents on the topics of marine biology and animal behaviours — and he's always willing to offer expert travel insight within Southeast Asia and Africa.

LEARN MORE

Kit van Wagner

Marine Biologist, Dive Master

Inspired by her experiences growing up in Japan, Norway and England, Kit van Wagner has been steadily working her way around the globe, sharing her infatuation with marine life as she goes. Since 1999, Kit has enjoyed working internationally as a naturalist, lecturer, dive master and Zodiac® skipper on small expedition ships. At sea, Kit is keen to share her good humour and enthusiasm for wild places, wildlife, and remote cultures.

LEARN MORE

Brad Siviour

Naturalist

Brad has been working on expedition ships for the past two years in regions including the Kimberley of Western Australia, New Zealand and its sub-Antarctic islands, the Spice Islands of Indonesia, Borneo and Antarctica. Since he began working as a naturalist about five years ago, Brad has developed a keen interest in wildlife photography and is always willing to share hints and tips on how to capture that special moment while out in the field.

LEARN MORE

Each Silversea Expeditions voyage is led by a team of 11 experts*: naturalists, anthropologists, geologists and historians, hand-picked for their knowledge, passion and friendliness.

Your Expedition Leader and Captain will work together to ensure opportunities for adventure and exploration are the best possible, taking into account prevailing weather activity.

*The Expedition Team members scheduled for these voyages can be subject to change or cancellation.

Extend your voyage with these Land Adventures. Offered before or after select voyages, these excursions explore a region's must-see destinations and include accommodation, transfers sightseeing and some meals.

NOME/SEWARD, ALASKA, USA

Denali by Air

Explore Denali National Park from an eagle's perspective; ride the rails with Deluxe Dome Railcar service; participate in a guided Tundra Wilderness Tour; visit the home of a four-time Iditarod champion — all while the verdant scenery of South Central Alaska stretches out before you.

Four nights pre-cruise: Voyages 9616, 9619, 9719
Four nights post-cruise: Voyage 9616, 9715

Denali — The Summit of North America

Enjoy a train ride on the famous Alaska Railroad to Denali National Park, a four million acre wildlife refuge surrounding Mount McKinley, the tallest mountain in North America. The park is home to an abundance of wildlife including bears, caribou, Dall sheep, gray wolves and moose. Your full-day, fully narrated Tundra Wildlife Tour ventures deep into the park in search of wildlife. On your way back to Anchorage, stop for an exclusive experience at the home of four-time Iditarod Champion Martin Buser to learn about the Last Great Race and the wonderful champion dogs he raises and trains for mushing.

Four nights pre-cruise: Voyages 9616, 9619, 9719
Four nights post-cruise: Voyage 9616

Flight to Bear Country

Head for a prime grizzly habitat on a 50-minute floatplane ride with scenic views of Cook Inlet along the way. Aboard a boat, head for an area of the lake where bears are known to fish, for a close-up (but respectful) view of these magnificent creatures. Lunch at the rustic Redoubt Lodge is included.

Three nights pre-cruise: Voyages 9616, 9619, 9719
Two nights post-cruise: Voyage 9616

Winterlake Lodge Retreat

Experience the glory of the Alaskan wilderness at one of the State's premier and most remote wilderness lodges. Arrive by floatplane for two days of wildlife viewing, gourmet meals, outstanding services and options like helicopter glacier trekking, sport fishing and cooking classes in the kitchen of award-winning chef, Kirsten Dixon. Includes Anchorage overnight and city tour.

Two nights pre-cruise: Voyages 9616, 9619, 9719
Two nights post-cruise: Voyage 9616

OTARU, JAPAN

Japan — Then and Now

The modern Japan of today has its roots in the mists of time. Travel from Tokyo to the former capital of Kyoto. Visit shrines dedicated to the two principle religions of Japan; centres of instruction and learning during the Nara and Heian periods. Finally, pay homage to the modern-day quest for world peace that is exemplified in the monuments of Hiroshima.

Three nights post-cruise: Voyages 9619, 9719, 9720

Lake Akan and The Cranes of Kushiro

Immerse yourself in the great natural sites of Hokkaido. Trek in Kushiro Marshland National Park. Two thousand spectacular varieties of animals and plants thrive here in Japan's largest marshland, which supports the only population of endangered Japanese cranes in Japan. Designated as a Special Natural Living Treasure, the endangered red-crowned cranes known as "Tancho-zuru" roam freely in a beautiful reserve dedicated to their preservation.

Three nights post-cruise: Voyages 9619, 9719, 9720

SILVER SHORE SIMPLY HOTEL

Overnight at a 4.5- or 5-star hotel before or after your cruise. Includes one night standard room accommodation and breakfast. Transfers, additional nights and upgrades available upon request.

Seward/Nome, Alaska
Captain Cook Hotel

Otaru, Japan
Hotel Nord

SILVER SHORE GRANDE HOTEL

Extend your Silversea holiday with a stay at a landmark hotel or boutique property. Includes full breakfast and private transfer between airport and hotel. Additional nights and upgrades available upon request.

Otaru, Japan
JR Tower Sapporo

Please note that packages, flights and accommodations are subject to change. For more information, please call Silversea Reservations or visit: silversea.com/expeditions

Birding Voyage Learn More

ALASKA & THE RUSSIAN FAR EAST

A land of dramatic volcanic activity and remarkable wildlife, the Russian Far East is documented in the Collections of the Royal Geographical Society (with IBG) through historic early maps and charts, some of the earliest documentary photographs of the region, and in Russian language journals and other documents which can only be found in Helsinki, St. Petersburg, and at the Society's London home. Explore the work of Danish-born navigator Vitus Bering (the first European scientific explorer of Siberia), whose work was inspired and sponsored by Peter the Great and later by Czarina Catherine the First. Later, celebrate the important scientific expedition of 18th century French explorer Lapérouse, whose 1786 voyage was the first European scientific expedition to explore the Sea of Okhotsk. From this remarkable and isolated land of rugged beauty, much has been learnt that enhances

our knowledge of geography, science and cultural history over the past 300 years; the Society's Collections provide a unique window the work of these early travellers and their expeditions for a modern audience.

ACTIVE ADVENTURE

Immersive, Experiential, Transformational

Whether it's attending a briefing, exploring by Zodiac, or hiking on terra firma, a Silversea expedition to these wilderness shores will immerse you immediately in your destination. One morning you could be cruising through pack ice, watching for walrus haul outs and pods of whales; the next day hiking through taiga forests on the lookout for bears and Steller sea eagles, or visiting Inuit villages where natives welcome you with song and dance. The great outdoors is our playground, and we spend as much time as possible on our Zodiacs or ashore.

All-Inclusive Activities

- Lectures, daily briefings and recaps
- Nature walks and hiking
- Wildlife spotting for bears, whales, seals and huge populations of migratory birds
- Zodiac® cruising around uninhabited islands with active volcanoes and dense populations of birds
- Photograph smoking, snow-capped volcanoes and wildflower-studded tundra
- Walking tours of former Soviet-era military outposts and defunct gulags
- Zodiac ride to Yankicha caldera with its fumaroles and hot springs
- Cultural immersion at remote Yupik and Chukchi settlements
- Shore excursions to towns and native villages, including historic churches, museums, and WWII bunkers

EXCEPTIONAL WILDLIFE

Examples of wildlife that can be seen on these voyages:

Veranda Suite, Silver Discoverer

Silver Discoverer

ABOARD SILVER DISCOVERER

An Intimate Experience

From the glacial beauty of the Inside Passage to the fiery volcanoes of the Russian Far East, adventure travellers can explore the northernmost boundaries of the Ring of Fire aboard the 120-guest Silver Discoverer. She's the perfect platform for viewing these untamed landscapes, with all ocean-view suites, some with French balconies, and plenty of deck space so that a breaching whale or a soaring bald eagle is always within sight. Her shallow draft allows her to navigate closer to shore, and with 12 Zodiacs, guests can land on isolated coasts and venture up remote rivers to view wildlife in their natural habitat — a bear fishing for salmon, perhaps, or a sheer granite cliff dense with seabirds.

Silver Discoverer Features

- Intimate 120-guest expedition ship
- All ocean-view accommodation
- Swimming pool and sun-catching pool deck
- Dining options including The Restaurant, The Grill and Discoverer Lounge
- 12 Zodiacs for in-depth exploration
- Casual/informal attire — no formal nights
- Fitness Centre
- Beauty Salon and Massage Room (fee applies)

ALL-INCLUSIVE LIFESTYLE

Beautiful food inspired by our far-flung destinations. An in-suite bar stocked with your favourite beverages. A fine down duvet, Pratesi® bed linens, and your choice of mattress. At Silversea Expeditions, we include all the things that turn a good voyage into a great one. Drinks, shore expeditions and gratuities come at no extra cost. So you don't have to worry about anything except enjoying the adventure.

Now you can free your imagination as you stay connected with your world without costly internet fees. Our all-inclusive fares include one free hour of WiFi per day, per guest, with select suites receiving unlimited free WiFi. With WiFi hot spots from bow to stern you're free to email, surf the web and read newspapers anywhere on the ship.

- Shoreside and Zodiac excursions
- Outstanding Expedition Team of expert guides and lecturers
- Butler service for all suites
- Open-seating dining
- Fine cuisine inspired by Relais & Châteaux 
- Champagne, wines and spirits served throughout the ship
- In-room bar setup and refrigerator stocked with your preference
- Room service (6am – 11pm)
- Water resistant backpack and stainless steel water bottle
- Included onboard gratuities
- One hour free WiFi per day for all guests, and unlimited free WiFi for guests sailing in select suite categories

A COMPLEMENT TO YOUR ADVENTURE

This is the joy of expedition cruising. Incredible scenery awakens the photographer, wild adventure beckons the explorer, close-up encounters with Stone-Age cultures await the adventure traveller. No matter what your special interest, there is an expedition with Silversea that can satisfy your passion for true discovery in a highly personal and immersive way.

DIVING EXPEDITION VOYAGES

Silversea Expeditions offers a series of Scuba Diving Expedition voyages to fully explore the remote destinations we visit, both on land and underwater. Together with our Expedition Team and Dive Masters we will offer experienced divers the opportunity to see the top diving sites of Asia Pacific and the South Pacific. Nine voyages to choose from in 2016.

[LEARN MORE](#)

BIRDING & ORNITHOLOGY EXPEDITION VOYAGES

Silversea Expeditions offers a series of highly immersive Birding Expedition voyages to remote destinations, often inaccessible by land. Together with our Expedition Team and passionate ornithologists, you can enjoy onboard lectures to discover and study a large variety of faraway bird species. Twelve voyages to choose from in 2016.

[LEARN MORE](#)

WELLNESS EXPEDITION VOYAGES

Silversea Expeditions offers a series of Wellness Expedition voyages specifically designed to improve your well-being. As well as taking you to some of the most remote and unexplored places in the world, we provide a complete onboard programme of Yoga and stretching classes, spa treatments and daily healthy menus, supported by our Wellness partner, Technogym. Six voyages in 2016 to choose from.

[LEARN MORE](#)

Africa & the Indian Ocean

The West Coast of Africa is largely unknown to tourists. Still raw and innocent. Still utterly authentic. Or set your sights on the gilded pagodas of Myanmar, the leopards of Sri Lanka, and beyond to the jewels of the Indian Ocean including the Maldives, and in the Seychelles, the Garden of Eden, itself.

Antarctica

Cast off to the bottom of the world. Drift across glacial waters, passing giant prisms of ice riding an ink-blue sea. Witness wildlife, unafraid and unperturbed by your presence: bellowing elephant seals, raucous rookeries of penguins, swooping seabirds in every shape and form.

Arctic

Follow in the wake of the Vikings to Greenland and Iceland. Explore Svalbard where the polar bear roams freely. Hike in spectacular tundra and Zodiac amid icebergs. Walrus haul out on rocky shores. Whales breach before your eyes. Come delve into the wonder of one of the planet's most inspiring places.

Asia

Circle the captivating islands of Japan, Indonesia and Malaysia. Discover Torajaland in Sulawesi and dive among the reefs of the Coral Triangle. Stroll through magnificent Japanese gardens, explore Samurai castles, cruise along underground rivers and come face-to-face with one of the world's most endangered species: the orangutan.

Australia & New Zealand

The world's smallest continent is a land of superlatives with amazing wildlife and unrivalled scenery. It's hard to imagine anything more beautiful than the Kimberley in Western Australia. Unless it's New Zealand's splendour; her Sub-Antarctic islands are a pelagic wonderland, and *Silver Discoverer* is among the few permitted to land in these 'hotspots' of biodiversity.

Central America & Caribbean

Let your thoughts drift to balmy breezes and swaying palms. Hike through tropical rainforests, visit jungle villages, and cruise by Zodiac to a deserted island. Set sail for some of the most enchanting destinations in the Americas. In the most alluring way imaginable.

Galápagos

Snorkel with penguins, dive with sea lions, hike along lava tunnels and back to the beginning of time. Behold giant tortoises, Blue-footed boobies and iguanas basking in the sun. Experience the "Enchanted Isles" from the all-suite comfort of *Silver Galapagos*.

Micronesia, Polynesia and Melanesia

Separated by vast expanses, the islands of Oceania range from the impenetrable mountains of Papua New Guinea to the edens of French Polynesia. These far-flung archipelagos support an incredible diversity of cultures with an intriguing repository of ancestral traditions ... and enough untouched natural beauty to last a lifetime.

Northern Europe and the British Isles

From Atlantic Islands and Iberian shores to France's wine country and the picturesque charm and historic riches of Ireland and Britain, these intriguing expeditions reveal new dimensions of even familiar nations.

South America

Experience the diversity of South America from the lush Darien Jungle to Chilean lakes and glaciated fjords. Admire the pre-Columbian ruins and deserts of the Atacama. Ride a Zodiac around icebergs and calving glaciers. Behold penguins, condors, sea lions — a fantastic array of seabirds and marine life as we journey south.
