

the Nova way to travel
SILVER NOVA

Everything has changed,
including the way we travel.
Silver Nova embraces this change
and offers a new perspective.

It's not just a new ship,
it's a new way to see the world.

A revolution in the art of travel.

Our newest flagship, *Silver Nova*, is here to change the way we sail forever. With her bold, asymmetrical design, she features wide open spaces and breathtaking views of your destination, everywhere you look. Novel, indulgent luxury experiences will make your voyage unforgettable, while cutting-edge technologies and a whole new approach to sustainability ensure we respect the environment, wherever and whenever we sail.

*Silver Nova is about more
than exploring new places...*

*...it's about respecting
them in a new way.*

SUSTAINABILITY

Onboard *Silver Nova* we take care of everything, including the environment.

The ocean ecosystem is our home. It's also how we reach our stunning destinations. However, it's as fragile as it is vast. With *Silver Nova*, we're introducing a new way of looking at sailing, at the environment, at the ocean itself. Thanks to unprecedented, state-of-the-art technologies, *Silver Nova* is one of the most sustainable cruise ships ever built: a true reflection of our deep commitment to the oceans, the environment and the communities we find at each of our splendid destinations.

**The industry's first dual-fuel
multi-hybrid cruise ship
with three sustainable power sources.**

Powered by a trio of sustainable power sources, *Silver Nova* is primed to lead our fleet into a new world of sustainable cruising. Not only will she achieve a 40% overall reduction in carbon emissions per double occupancy*, but she will also be the first cruise ship to use fuel cells to support the entire hotel load while in port, cutting harmful local emissions to zero. She is also 25% more energy-efficient overall**.

This is all achieved by the adoption of an innovative dual-fuel engine. In addition to running on regular Marine Gas Oil, used by most ships, *Silver Nova* will be able to use LNG (Liquefied Natural Gas), a cleaner-burning fuel that emits less CO2 and 97% fewer particulate than regular fuel oil.

In addition, she will feature the first large-scale installation of fuel cells at sea: a hydrogen-based technology that can produce energy to carry the ship's entire hotel load - up to four megawatts - or to power the batteries, optimising her overall power system and saving fuel.

* compared to our previous class of ships | ** compared to applicable International Maritime Organization (IMO) requirements

Lower emissions. Higher efficiency. Cleaner sailing.

Silver Nova was designed from her backbone to lower her environmental impact as much as possible, starting with the carbon footprint for her construction. Her hull was designed to increase dynamic efficiency and minimise fuel consumption. She also incorporates state-of-the-art technologies to reduce onboard waste, such as the newly-developed Micro Auto Gasification System (M.A.G.S.), resulting in lower

incineration emissions, and a Waste Heat Recovery System which allows the ship to reuse waste heat (ie. from the absorption chillers) for even more energy efficiency. Furthermore, she's equipped with Shore Power, a feature that allows *Silver Nova's* main generators to be shut down and the ship plugged into the onshore energy supply where available, cutting emissions while in port.

*It's not just about reaching
the edge of the world...*

*...it's about seeing it
from a new perspective.*

OPENNESS

A ship that opens up to new destinations and new possibilities.

Silver Nova's groundbreaking design, with its incredible 270° views, surrounds you inside with all the beauty of the outside. As you gaze out from your suite's wall-to-wall and floor-to-ceiling windows you'll slowly feel the space between you and your destination melt away as you see, feel, and experience more of it right onboard.

Silver Nova doesn't just have one good side, it has two.

With a revolutionary design that prizes openness over symmetry, *Silver Nova* has beautiful views all around, with spaces that open you up to your destination, whether you're in your suite or out and about. To top it all off, our uppermost decks feature an infinity whirlpool and large swimming pool with views over the water, from the water.

The Marquee: For wonderful seaside *al fresco* dining and drinks.

The Pool Deck: Our fleet's largest pool opens right out to your destination.

The Dusk Bar: Enjoy a cocktail as you admire the unique view aft.

A new way to be more open.

As you wander the expansive decks of *Silver Nova*, you'll marvel at just how much sea is around you at every turn, all thanks to its unique design. In fact, in some moments it may feel like you're not even on a ship at all.

A view of the Pool Deck, located on Deck 10

The Pool Deck surrounds you both inside and outside the water, with an extraordinary horseshoe design that features unobstructed views out to sea and the beauty of your destination wherever you are. These extend from the main pool all the way to the bar so you can enjoy every second and every sip.

Views of The Pool Deck onboard *Silver Nova*, featuring extra-large central pool

The Dusk Bar opens up to welcome you to the horizon, as our brand new open-air sky bar affords you incredible 270-degree views. Enjoy an espresso in the afternoon as you gaze out at your destination, a hot chocolate on chillier days, or a delicious cocktail at sunset as you mix it up with your fellow travellers.

The Marquee is an entirely new way to relax onboard with two delectable dining options in one - The Grill and Spaccanapoli - both overlooking the waters of your destination. With seaside tables and a large variety of dishes from a quick bite to a Hot Rocks dinners under the stars, it's the place to be on *Silver Nova* (see next page).

Beauty as far as the eye can see.

Silver Nova was built from the water up to be the most open possible, with an innovative design that features breathtaking vistas all around. Glass walls are found in all suites and most public spaces, with many sporting larger floor-to-ceiling glass than ever before. Glass elevators feature your destination as decoration, and our La Terrazza dining venue has 270° of glazed glass all around the restaurant. All this culminates in our one-of-a-kind Atrium, with a continuous floor-to-ceiling “glass wall” that spans two whole decks. And there’s so much more. With uninterrupted panoramas visible from all over the ship, *Silver Nova* can, at times, seem completely transparent, as it opens you up to the world like never before.

*This is more
than just a trip...*

*...it's a new way
of savouring your journey.*

A NEW LUXURY EXPERIENCE

Onboard *Silver Nova*, you truly can have it all.

Silver Nova is a new dimension in luxury, with more of everything you love, and the space and time to enjoy it. You'll be spoiled for choice with an outstanding selection of dining venues across the ship, as well as a series of onboard luxury experiences that will relax and pamper you throughout your voyage. All with much more personal space onboard than ever before. Enjoy.
