CONSCIOUS NAVIGATION

Classified as Polar Category C and Ice Class 1B, our yachts are made for experiencing polar regions to the max. With a hydro-jet propulsion system that allows us to cruise virtually silently, our yachts minimize underwater noise so as not to disturb marine life. We realize the possibilities of environmental stewardship with the latest hybrid power management and propulsion systems, maximizing fuel efficiency and consuming as low as one-fifth the fuel compared to conventional cruise-ship systems, reducing our impact on the environment.

POLAR EXPEDITION PARTNERSHIPS IN ANTARCTICA

ORCA

An ocean conservationist from ORCA, a whale and dolphin conservancy, joins select expeditions in Antarctica to give you and your fellow explorers the opportunity to become Citizen Scientists by learning to gather data, record sightings and take photos through interactive, hands-on workshops.

GLOBAL PENGUIN SOCIETY

On select expeditions in Antarctica, join conservationists from the Global Penguin Society as they track and record vital information for protecting the future of the world's penguin populations.
