EXPLORE DEEPER WITH EXPEDITION EXPERTS

Expeditions are meticulously planned and executed by a team of naturalists, biologists, geologists, and historians to provide an enriching and unforgettable journey. On board, Expedition Leaders deliver illuminating lectures that offer an overview of the day's discoveries to fully immerse guests in the natural beauty of Antarctica.

ZODIAC CRUISING

Witness wildlife and majestic landscapes up close by Zodiac — from passing through towering icebergs to capturing a whale breaching the water's surface. The nimble Zodiac enables you to navigate narrow inlets, reach islets, and glide by ice floes. Captained by experienced operators, nearly every excursion is hosted on these sturdy vessels, allowing for both planned and impromptu adventures as wildlife dictates and conditions allow.

KAYAKING ADVENTURES

Immerse yourself in the raw beauty of these regions through guided kayaking tours, where you forge personal connections to the polar wilderness. Marvel at the majesty of a glacier or watch spellbound as a leopard seal swims right alongside you. Under the guidance of certified kayak instructors, you'll paddle through fjords and some of the world's best natural aquariums.

LANDINGS AND GROUP HIKES

Our Expedition Leaders host guided walks ashore — identifying exotic species, unique glacial formations, geological structures, and other fascinating features. Experience the thrill of setting foot on far-flung lands and conquering new territories. Whether you're following in the footsteps of famous explorers or greeting a colony of gentoo penguins, you'll gain a deep and lasting understanding of this remarkable land.

EXPERT INSIGHT

Our Expedition Team members have spent decades exploring Antarctica and are eager to share their extensive knowledge and experience with you. These Expeditions are enriched by daily briefings and lectures from naturalists, biologists, and historians who bring each destination to life with their expertise and guidance. Their detailed insights into the ice, land, and wildlife adds a fascinating dimension to your personal explorations and discoveries.
